Bradley's Again Offer a Complete Line of

FIRST QUALITY FRUIT TREES— FRUIT PLANTS—SHRUBS and ROSES

H. J. Bradley

Greater Values That Only Many Years of Experience Can Provide

A GUIDE TO MORE BEAUTIFUL, MORE FRUITFUL HOMES

This is your book and we trust it will be a guide to a more beautiful and a more fruitful Home; a happier and healthier family. We have endeavored to offer in this book only varieties which have been tested and found of sterling quality, and to describe them accurately so that in your home you, and your family, can select exactly what you need.

We picture some of our prize varieties in their natural size and color.

We believe that the High Quality Nursery Stock we sell will yield quicker, and more lavishly, because it is propagated by experts and grown in soil we believe is especially adapted to the growing of vigorous, strong, sturdy trees, plants and shrubs, with long fiber roots and surging life. We believe the kind of stock you want to plant.

GRATITUDE

Again we wish to express our most sincere thanks and appreciation to all our customers and friends for the tremendous business and loyal support given us in the past, especially to those who have been so kind as to recommend our firm to their neighbors and friends. This splendid cooperation and assistance enabled us to win and satisfactorily serve many thousands of new customers the past year. THANKS A MILLION.

BRADLEY'S GUARANTEE

We guarantee all Nursery Stock we sell to be of the highest quality, strong, vigorous and healthy. We further guarantee the stock to reach you in a good growing condition. If you are not satisfied with any item when you examine it on arrival, and will immediately return it at our expense, we will, without question, immediately either replace the item, or items, or refund your money. We ask that a report on any item that fails to grow be made not later than July 1, 1947.

A View of Our Packing House and a Few of the Folks Who Are Glad to Serve You

It's Easy to Order From Bradley Bros.

WHEN TO ORDER

PLAY SAFE—Order now and be sure to get the varieties you want. At this time we have a good supply of all varieties offered in this Catalogue. So great was the demand last season that thousands were not able to obtain the fruit trees, fruit plants and nut trees they wanted. There is only one way to be sure of getting the better varieties of fruits. That way is to order now while the varieties are still available, otherwise, because of scarcity, we can not guarantee delivery. If you order now the stock will be reserved in your name until the proper time to plant in your neighborhood. We keep familiar with weather conditions in every section of the Nation during the shipping season, February to late May.

COMPLETE PLANTING INSTRUCTIONS WILL BE ATTACHED TO EACH SHIPMENT FREE

Our interest in you does not end when we receive your order. We want every customer to have the most complete success with every item purchased from us. Should you desire planting instructions before shipment let us know and we will send them. **NO CHARGE FOR THIS EXTRA SERVICE.**

BRADLEY'S TREES, PLANTS AND SHRUBS are **TRUE TO NAME** and size and quality represented—**ABSOLUTELY FREE OF DISEASE.**

NO DISEASED TREES, PLANTS OR SHRUBS are permitted in our Nurseries. They are inspected very thoroughly by a duly authorized State inspector and a copy of our certificate received from the Department of Agriculture accompanies each shipment.

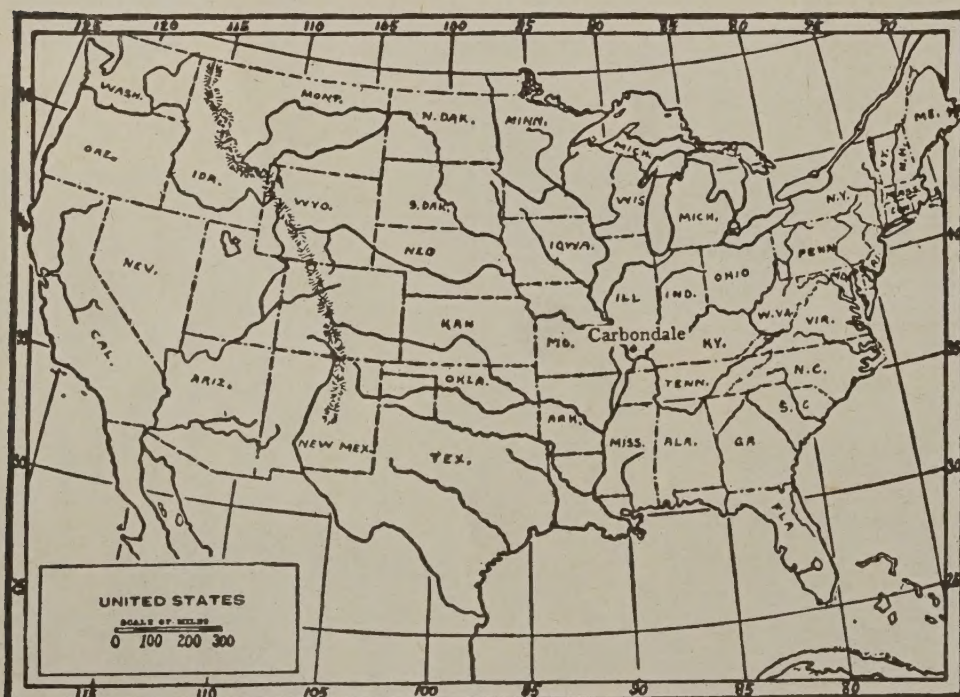

WHY YOU SHOULD BUY NURSERY STOCK FROM A NURSERY

The growing and handling of Nursery stock is a highly specialized job and requires expert knowledge and training. Nursery stock is alive and perishable and must be handled under proper conditions in a suitable building. Our new Nursery storage and packing building is especially designed for this purpose. Our employees are trained Nurserymen and expert packers. This means our stock will not only live but will grow faster and give better results.

OUR CATALOGUE

WHICH IS OUR ONLY SALESMAN, is not expensive, as we group a number of our better fruits and flowers on the same page. In this way we are able to show our special, most select varieties in their natural size and color with but little extra expense. Perhaps it would be a little more convenient for you if we printed our entire catalog in four colors and gave the price and description on the same page with the illustration. However, this would involve a great deal of extra expense which would have to be added to the price of our stock. We believe the saving we pass along to you in lower prices will well pay for the time required to turn to the pages printed on cheaper paper and in only one color for the description and prices. In this book you will find the names and addresses of satisfied customers. They have very kindly given us their permission to use their names and any parts of their letter we wish.

All Varieties of Fruits Offered in This Book Unless Otherwise Specified Are Self Pollinizing Varieties

LOCATION—Carbondale, Illinois

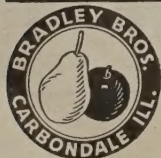

YOU ARE OUR NEIGHBORS

Our Central location, rapid method of transportation and mail man make us almost next door neighbors.

LOCATION

Carbondale, Illinois, is located almost exactly midway between the Rocky Mountains and the Atlantic Coast, and also midway between the Dominion of Canada and the Gulf of Mexico. Hence Bradley Grown stock is well adapted to any section of the United States east of Rocky Mountains.

We have direct connections with all railroads running north, east, south and west, which assures safe and prompt delivery. If you live east of the Rocky Mountains your stock will reach you within a few hours after shipment. Our nursery is in the noted fruit growing section of Illinois. We believe the finest fruit in America is grown within a few miles of our nursery. Our soil seems to be especially adapted to the growing fruit, and the most thrifty, heavy bearing trees and plants. Bradley's fruit trees and plants are noted in every section of the country for their vitality and heavy bearing ability.

READ WHAT THESE PEOPLE SAY

I beg to advise that your Nursery Stock and Service has been entirely satisfactory. I am glad to recommend your stock and service to prospective buyers.—Dr. Ralph B. Snapp, Winchester, Virginia.

I received my order of Nursery Stock and was very much pleased. They are all growing and doing fine. I indorse your stock to any one who is planning to set out some fine trees.—C. E. Leasure, Zanesville, Ohio.

I am pleased to say your Nursery Stock is grand. My peaches are the nicest in this Country. They have made a wonderful growth and are doing fine. Thanks to you and good luck to you in your wonderful Nursery work.—L. E. Wells, Chester, West Virginia.

In 1939 I got some of your Ever-bearing Strawberries which gave me much satisfaction and pleasure.—J. Edwin Fletcher, Practical Psychologist, Springfield, Mass.

The Nursery Stock I received from you has

really grown splendidly. Fruit from Peaches very fine.—Mrs. Anna Ridley, South Bound Brook, N. J.

My DeSoto Blackberries had ripe berries, red berries, green berries and blooms on the bushes all at the same time. Fruit trees all doing fine.—Henry Robertson, Columbia, Tenn.

I must write you about the trees you sent me. First, they are the best trees around here. I cannot say enough for them. They came through fine and are the best.—Mrs. Flanagan, Philadelphia, Pa.

We were perfectly satisfied with the trees we got from you. The Peach Tree had a nice lot of peaches last year.—Mrs. A. E. Frost, Williamsport, Pa.

I received your Fruit Trees in good condition and was highly pleased with them.—C. L. Baldwin, Hallsboro, N. C.

I am well satisfied with the Nursery Stock that I have bought from you. The Anoka Apple Tree that I set out

last Spring has a few Apples on it now.—A. L. Gorsett, Sedalia, Mo.

I wish to state at this time, that you have given me very satisfactory service and your stock has proven to me that I have dealt with a very reliable Firm.—George Heldman, 8514 Drury Lane, St. Louis, Mo.

I am certainly pleased with the way your Nursery Stock is growing and am glad to have you use my name as a satisfied and enthusiastic customer. I think you are running a wonderful business to help humanity and are doing it in such good business like manner.—Granville M. Baker, Dayton, O.

My Nursery Stock grew and is looking fine. I am indeed a Bradley's satisfied customer.—Wm. F. Dearth, Seville, O.

Pear Trees and everything is satisfactory. If, in the future, there is any Nursery Stock we need, we will place our order with you.—Forrest T. Carr, Bernard, Missouri.

The Two Youngest Bearing
Finest Flavored and
Most Delicious

APPLES

No. 100 **FLAMING TRIUMPH**

The Flaming Triumph is, in our opinion, the finest apple grown.

1st. The trees begin bearing young and are one of the heaviest bearing apples known.

2nd. Ripens in Fall and keeps delicious all Winter.

3rd. Its big, solid red fruit is most delicious.

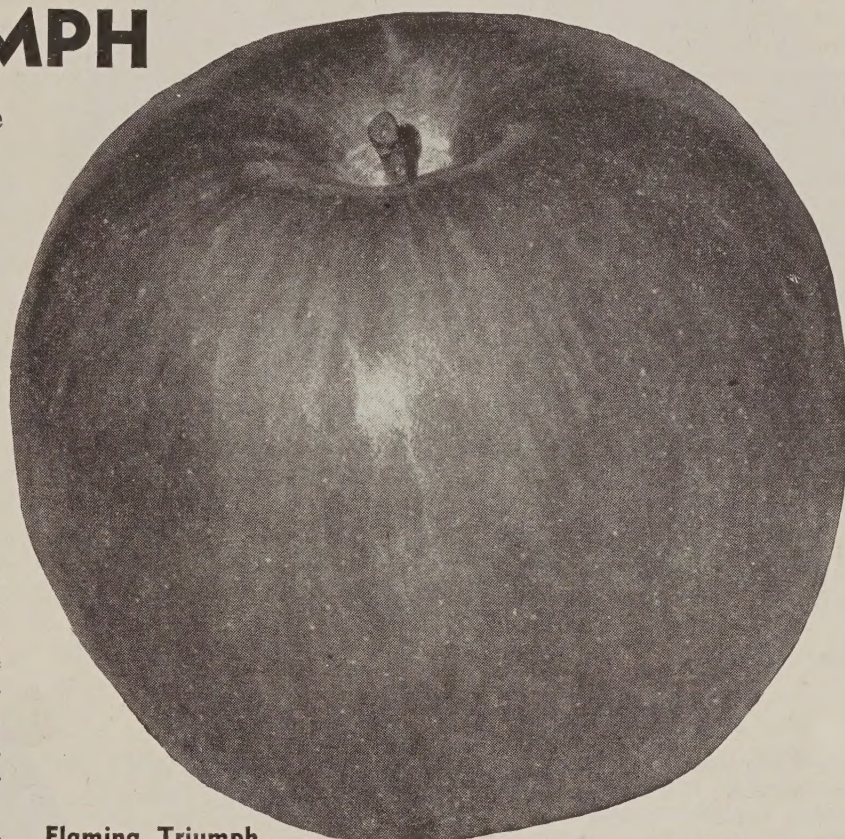

4th. We believe it has qualities possessed by few, if any, other apples.

Flaming Triumph has a rich, spicy flavor and its tender, crisp flesh makes it all that could be desired. The huge, solid red fruit is most attractive and will sell on any fruit market at top prices. You really must taste the crisp, juice laden flesh of this outstanding apple to appreciate how good an apple that is tree ripened can be. There is nothing more alluring than the fragrant aroma of a Flaming Triumph Apple in the basement at Christmas time.

The thrifty, disease-resistant trees will thrive even under unfavorable conditions. They will withstand heat and drought and are hardy enough for the northern sections of the United States. One tree planted in your back yard will give you loads of the most delicious fruit. A fine shade tree and a very beautiful, ornamental tree.

PRICES—BRADLEY'S FAMOUS SUPERIOR QUALITY FLAMING TRIUMPH APPLE TREES

Flaming Triumph

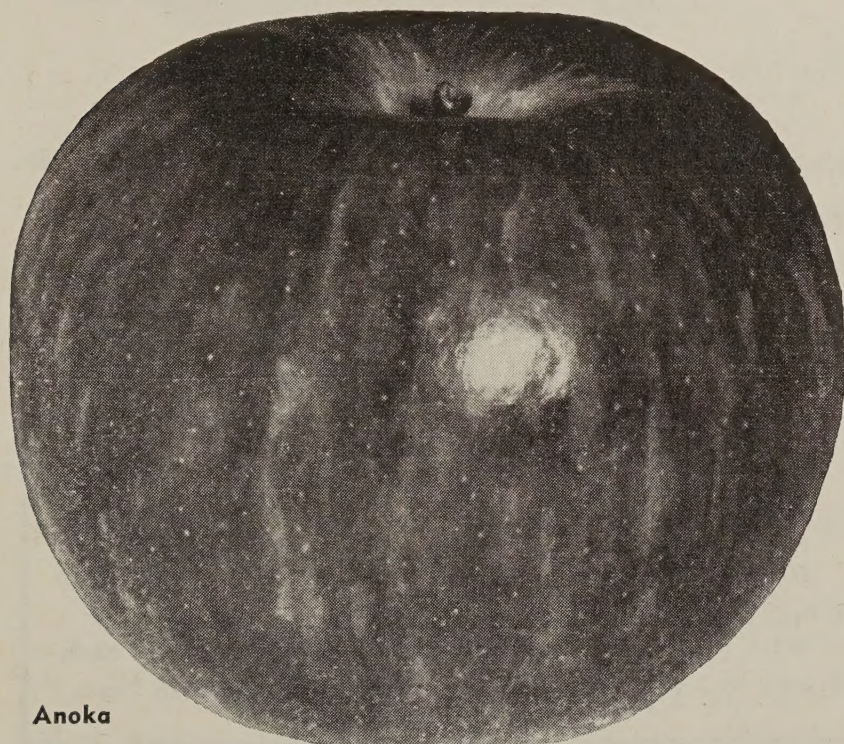

No. 102 **Anoka** See Back Cover

A wonderful early apple. Bears first year. No waiting for fruit if you plant Anoka. A grand apple for old folks. Hardy in all sections. Originated in South Dakota. A great eating apple, makes best of sauce and pies. Fruit is large. Most highly colored with attractive stripes. Flesh crisp and juicy. Highly flavored. Trees are dwarfish in habit, but very productive. Our two year old Anoka apple trees bear in the nursery row. The Ideal Variety for folks with a small yard, as they may be planted 12 feet apart. Old folks can plant Anoka and be sure they will see it bear several years.

PRICES—BRADLEY'S SUPERIOR QUALITY QUICK TO BEAR ANOKA APPLE TREES

	1 to 9 trees	10 to 29 trees	30 or more trees
4 to 5 feet 2 year.....	1.40 each	1.35 each	1.30 each

Save 2 to 3 years by planting Jumbo Super Size Trees

Anoka

I am very happy to advise that the Nursery Stock and Service we have received from you is very, very satisfactory. All Stock doing fine, could not ask for better. All trees are growing nicely and branching out so well. It always pays to buy the best and go to Bradley Brothers for good, better and best. I further wish to state, any one wanting good stock, good service and good treatment cannot go wrong when dealing with Bradley Brothers. Signed—A. A. Sprecher, Mountain View, Missouri.

Why wait five years for an apple tree to bear when you can plant Flaming Triumph this year and get a fine crop of fruit next year?

Bradley's Select APPLES

Delicious, healthful and rich in Vitamins A and B. Excellent as food in a diet for children and adults. Apples are a great benefit to humanity. You may select varieties which will give you fresh tree ripened fruit from early summer until winter. Several late varieties may be kept in the cellar all winter. Our trees are the best that can be grown and are backed by a guarantee of complete satisfaction. Complete instructions for growing the world's finest apples attached to each shipment.

No. 104

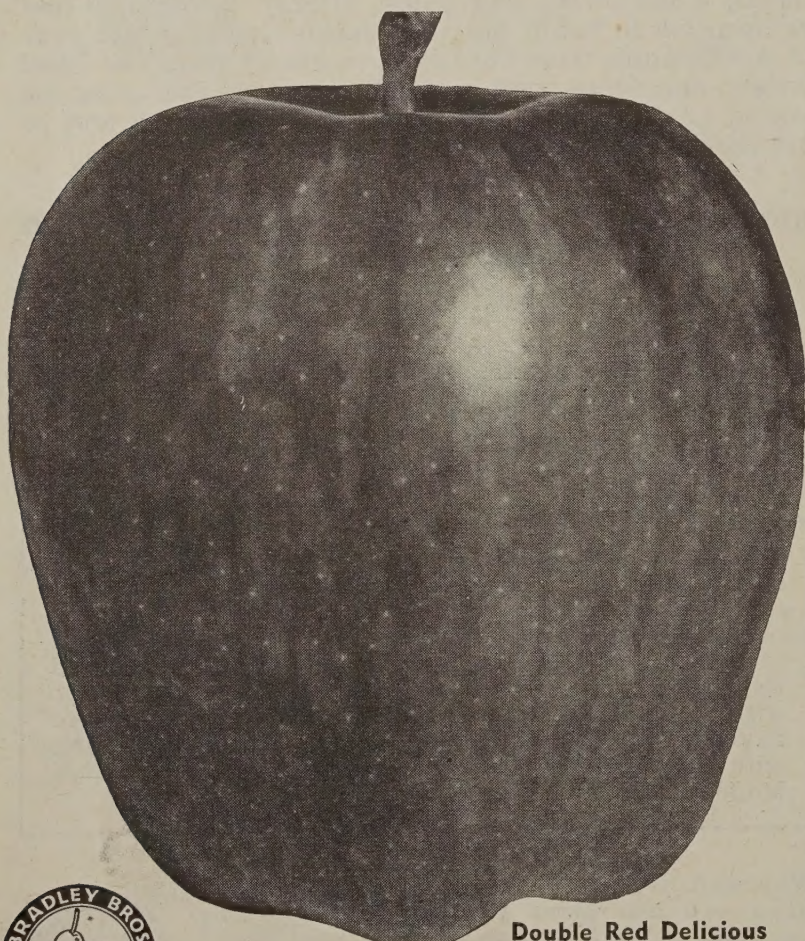

DOUBLE RED DELICIOUS

This variety is far superior to the common Red Delicious, as it has a much deeper solid red color all around with no green or white sides. Double Red Delicious colors from two to three weeks earlier than the Red Delicious. It comes into bearing when only three years old. Double Red Delicious is of course one of the most highly flavored apples and considered America's Number One apple. Always sells on the market at top prices. Plant some other variety to help pollinize.

No. 106

YELLOW DELICIOUS

A Gorgeous Golden Yellow delicious apple. Fruit richer, spicier, juicier and finer flavored than any other known yellow apple. Flesh crisp and tender. Trees vigorous, have wonderful vitality, free from disease, and will thrive where others fail. Has long blooming period, and should its first blossoms be killed by late frosts, the later blossoms will produce a good crop of fruit. Trees bear young, often bearing a good crop the second year from planting. Very productive, considered one of the heaviest bearing varieties. The huge golden delicious fruit commands the highest market prices. America's Number One yellow apple. Our trees are from parent trees we have selected for extra quality, size and vigor; the best that grows. Shown in color.

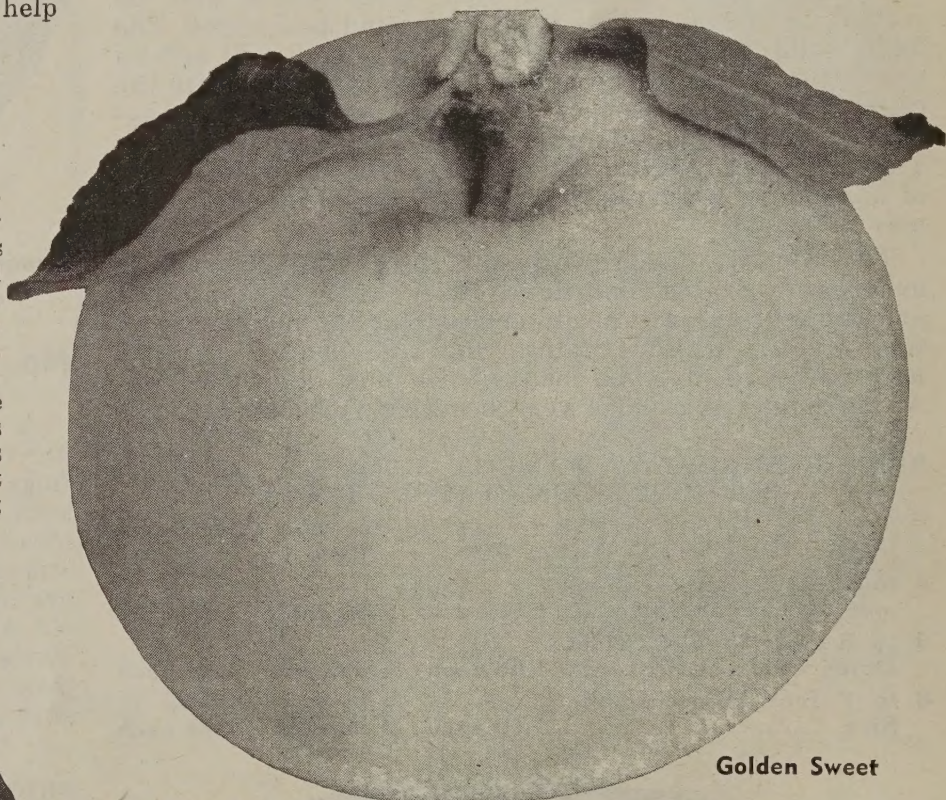

Double Red Delicious

No. 108

GOLDEN SWEET APPLE

This huge delicious apple esteemed for its honeyed sweetness. It is unsurpassed for baking, canning, stewing, pickling. It is excellent for making the most delicious apple pie, and for jelly. This apple is most desirable during the Sugar rationing. The fruit will remain crisp and juicy from early October until April and is unsurpassed for flavor and attractiveness. Few apples surpass it for richness and sweetness. Trees hardy, vigorous, productive. Come into bearing early, often bearing a good crop year after planted. Very ornamental. In spring it is covered with pink blossoms. Later the branches are bending with gigantic, delicious, sparkling golden fruit. Tree is free from disease. We highly recommend and guarantee this prize sweet apple.

Golden Sweet

No. 110. NEW HARALSON—Originated in Minnesota, and designed to stand **cold weather**. Trees are hardy and thrifty, excellent bearers. A solid, bright-red winter apple, with crisp, juicy, flavorful white flesh, Fragrant! Keeps all winter.

BRADLEY'S SUPERIOR QUALITY QUICK TO BEAR APPLE TREES—PRICE OF ALL VARIETIES EXCEPT FLAMING TRIUMPH AND ANOKA

✓ **No. 114. WEALTHY**—Ripens late summer and early autumn. Perfectly hardy, vigorous and productive. Fruit large, red streaked with white. Quality good. A profitable market sort.

Solid Red
Jonathan

✓ Dolgo Crab No. 124

Most Distinctive As An Ornamental Fruit Tree

In spring it is loaded with the most gorgeous pinkish-red flowers, followed with delicious fruit of the most brilliant flaming red color. The fruit will make bright clear red jelly of the most delicious flavor. A three year old tree will often give more than a peck of fruit, which will make 8 pints of jam and 45 glasses of the finest jelly. Trees are strong, free from any disease, will survive the coldest weather of the North, and the hottest dry weather of the South and Central States. Wherever you live if you have 12 feet of vacant ground, plant Dolgo Crab; if you are not delighted and highly pleased, let us hear from you and we'll refund your money and offer our most sincere apology. Price, 3 to 4 feet one year trees, \$1.00 each; 4 to 5 feet two year old trees, \$1.35 each; 5 to 7 feet extra heavy selected ready to bear trees, \$1.75 each. Beauty, fruit and the most gorgeous flowers all in one.

Wealthy

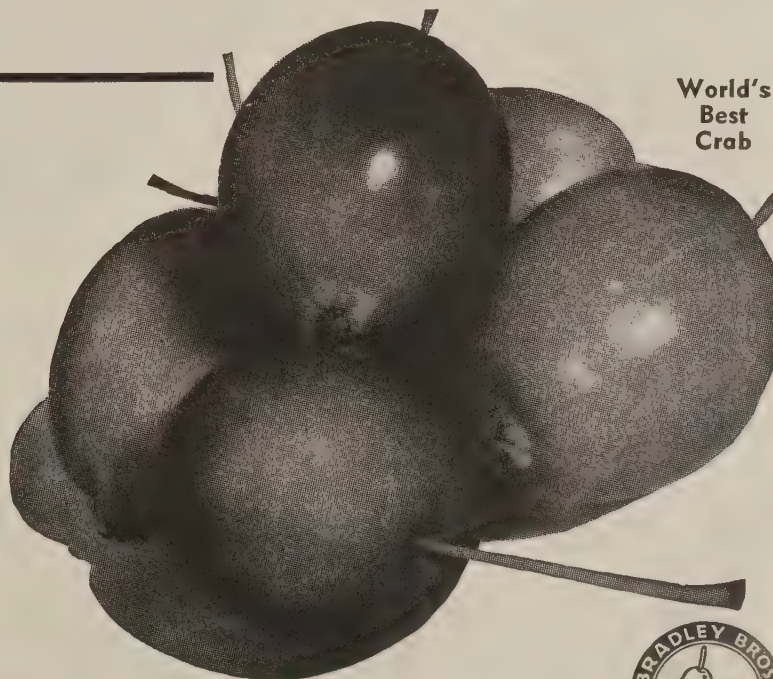

✓ **No. 116. EARLY RED BIRD, EARLIEST OF ALL APPLES**—Good size, strikingly beautiful, fiery, flaming, scarlet red. Rich spicy flavor. Delicious, eating and cooking apple. Trees strong growing, vigorous, extremely hardy. Bears young and produces tremendous annual crops. Comes on the market earlier than any other apple. Being very attractive have sold for almost double the price of any other variety. Plant Early Red Bird for Big Profits.

✓ **No. 118. SOLID RED McINTOSH**—Medium size, nearly covered with dark red, flesh white, tender, juicy and crisp; tree very hardy, a good bearer, starts bearing very young. One of the best.

✓ **No. 120. WINESAP**—An old favorite that belongs in every orchard, because it bears so well and the apples will keep right through winter and spring, that is, if you have enough so that you do not use them all up. Fruit is medium size, dark red, juicy, fine flavor.

✓ **No. 122. STAYMAN'S DARK DOUBLE RED**—A sport of the regular Stayman Apple, same quality and variety with exception of being very dark red in color, nearly **BLACK**.

Best
Crab

PEACHES

ELBERTA PEACH

Elberta peach ripens here about August 15th. North of Chicago about 20 days later. South of Memphis, Tenn., about 20 days earlier. By this you should be able to figure when all varieties ripen in your section.

Golden Gem No. 126

Survives Winters in Almost All Climates

The Golden Gem, is, we believe, one of the hardiest Peaches grown. This huge, delicious, hardy peach can be successfully grown as far north as any variety of peach known to us. This marvelous peach will thrive and bear fine crops of fruit where such varieties as Elberta and J. H. Hale will often be killed by late frosts and cold Winters. Its extreme hardiness makes it one of the most ideal peaches for the north, its ability to withstand hot, dry weather and its late blooming habit makes it an ideal peach for the East, West and South.

The large fruit is very uniform in size and shape. Color is rich golden yellow, with a sparkling crimson cheek. A perfect free-stone, flesh always parts freely from the seed when fully ripe. Has an excellent, rich, spicy flavor which is unsurpassed even by the celebrated Golden Jubilee.

Flesh firm, fine grained, very sweet and juicy. Here is a peach which simply melts in your mouth. The juice of this peach is rich, highly flavored, and the fruit when fully ripe, when taken from the tree, is so sweet that it requires but little sugar in canning. Golden Gem ripens from 6 to 8 days ahead of Elberta. We believe this peach is one of the hardiest and one of the most consistent and abundant bearers in America.

BEARS QUICKLY

Trees begin bearing when only two to three years old. When you plant Golden Gem we are sure you will be satisfied.

READ WHAT THESE PEOPLE SAY

Received the Fruit Trees in first class condition and they are growing fine. I am telling my neighbors about your fine trees.—A. B. Davis, Lowell, N.C.

Dear People: Your Service and Nursery Stock is of the highest and could not be improved.—Dr. L. B. Boellner, Roswell, New Mexico.

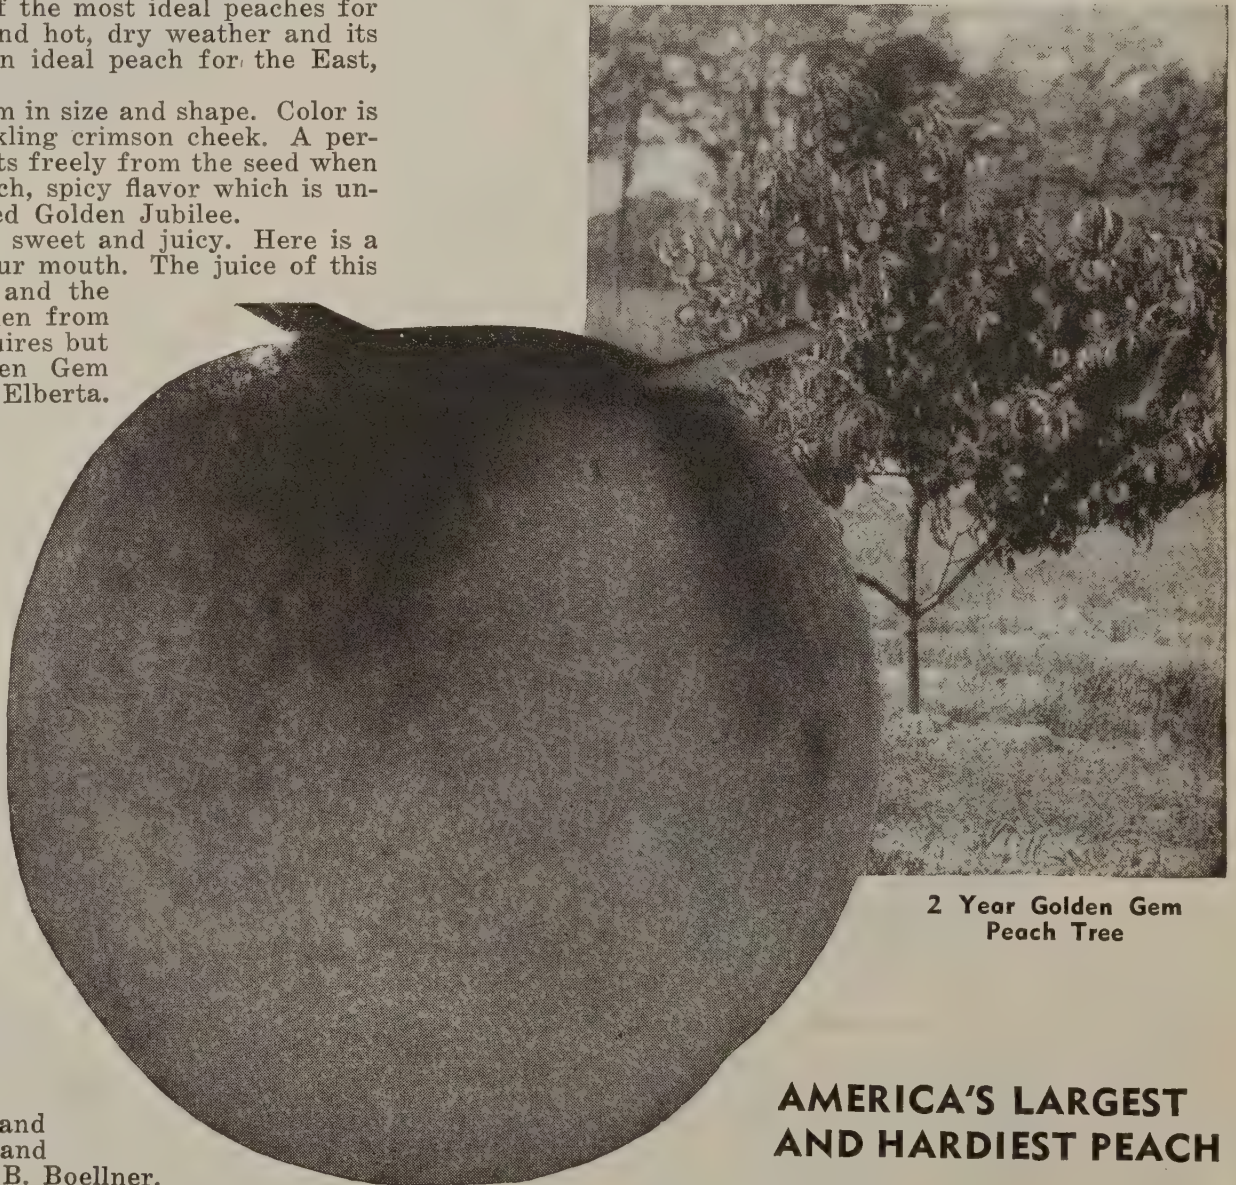

This is to tell you that the Nursery Stock we purchased from you was entirely satisfactory in every particular, and service was first class.—R. J. Brown, M. D., Charleston, West Virginia.

The Golden Gem Peach Tree, bought of you two years ago, is loaded. It must have fifty peaches on it now. The tree bought last year had four peaches on it. I am tickled over it.—George R. Todd, Sherman, Texas.

In 1943 we bought some fruit trees from your Company. They had blossoms on them the same Spring they were planted and the next year each tree had from 12 to 24 Peaches.

We are very well pleased. Hope all your customers are as well pleased as we are.—Frank C. Wanca, Williamsport, Pa.

Very few fruits enjoy such a general popularity as do Peaches. They combine delicious flavor, attractive appearance, and health giving food value. For many years it has been the popular opinion that Peaches would thrive in only certain sections of the Country. With the coming of the new hardier varieties, it has been shown that Peaches can be grown in some sections of almost every State. Peach Trees sold by Bradley's Nursery are as hardy as can be grown, and will withstand extreme cold weather and still produce big crops of fruit. Varieties we offer are, in our honest opinion, the finest varieties that can be grown. Each tree has lots of fibrous roots, straight body, are quick growing and begin bearing early. The kind of trees you like to plant. **All varieties we offer are self pollinizing unless otherwise stated in description.**

2 Year Golden Gem Peach Tree

AMERICA'S LARGEST AND HARDEST PEACH

Pay Big Profits Quickly

No. 141 **RED HAVEN**

The New Sensational Earliest Yellow Freestone Peach. Ripens 30 days before Elberta. This remarkable, brilliant, red cheeked, golden fleshed Peach is the sweetest, finest and most delicious early Peach we have ever tested. Smooth skin, almost fuzzless. Flesh, fine grained Golden Yellow, flavored with juice as sweet as sugar. A perfect canner and most delicious taken from the trees. It allures with its beauty, gratifies with its quality and sells at top market prices everywhere. Trees vigorous, extremely hardy. **BEARS QUICKLY.** Many times our Jumbo trees bear year planted. For those who wish a big crop of delicious, huge, yellow freestone Peaches each year, we especially recommend Red Haven and Golden Gem. Price, Red Haven trees same as Golden Gem. See price page 8.

Shown In Its Natural Size and Color on Front Cover

No. 128. ELBERTA—Fruit large, yellow with red cheeks. Flesh yellow, firm, juicy, and of high quality. It leads all other varieties in number of trees planted in America and is the most popular peach on the market. We guarantee our Elberta trees to be the finest grown. Ripens Aug. 10.

No. 130. FLAMING GOLD—New below zero peach. This hardy variety has gone through from 18 to 20 below zero bearing a full crop of fruit the following summer. Few peaches have made a better record. The fruit is very large, perfect freestone, golden yellow skin, beautifully blushed with crimson. The flesh is golden yellow, full of juice and has a rich sweet flavor. Very firm, wonderful shipper, sells high on the market. Ripens about 10 days ahead of Elberta.

PRICES ON

Bradley's Superior Quality Double Yield Quick To Bear Peach Trees all varieties except Golden Gem, Giant Red Cling and Red Haven

Red Haven

No. 132. HALE HAVEN—Freestone. A wonderful new peach that is hardy, produces heavily, its large yellow peaches of very high quality. Ripens 15 days ahead of Elberta.

No. 134. BELLE OF GEORGIA—Skin white; with red cheek; flesh white, firm, and of excellent flavor. Trees rapid growers and very productive. Ripens 5 days ahead of Elberta.

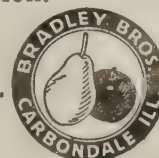

No. 136. GOLDEN JUBILEE—This variety is somewhat oblong in shape, and has a brilliant golden color with a slight red cheek on one side. It is golden fleshed, very juicy, and is a freestone. Is a perfect pollinizer and the tree is extremely hardy—produces fruit when others are frozen. Ripens 20 days ahead of Elberta.

No. 138. VEDETTE—A seedling of Elberta of Canadian origin. Ripens about 3 weeks before Elberta or just before South Haven. The tree is productive and the fruit large, roundish oval, yellow fleshed and a freestone.

No. 139 *Red Giant Cling*

The earliest, sweetest and most delicious, rich, creamy, white fleshed peach we have ever grown. Fruit is immense in size. It's **GLORIOUS**, red as fire, color commands instant attention on all Markets. A grand Home Orchard variety and the greatest Money Maker in Commercial Orchards. Its rich, creamy flesh is solid, yet melting and tender, has a most alluring flavor, in fact, America's most delicious Cling Peach. Ideal for canning, perserving and pickling. Unsurpassed for eating and cooking; so sweet little sugar is required. Trees thrifty, vigorous, and their Iron-Clad hardiness makes them adaptable to almost every climate and every type of soil. Our robust trees usually bear first year after planted. Ripens about 45 days ahead of Elberta. This hardy, most perfect Clingstone Peach should be in every Orchard. It is sure to give genuine Satisfaction. **PRICE ON TREES** same as Golden Gem. See Page 8.

Red Giant Cling

Rare New CHERRIES

Bradley's Hardy Cherries Can Be Successfully Grown Almost Any Place in U. S. Requires But Little Attention. Very Ornamental. Always Bear.

Each Spring trees are loaded with beautiful blossoms, later the branches are bending with huge, delicious fruit. May be planted in lawn, backyard, garden, and nothing is more profitable than a cherry orchard. We offer only varieties of the highest type, which have been given the most rigid tests. Cherry trees may be planted 15 feet apart. Our trees are vigorous, healthy, well rooted trees, the best that can be grown. Guaranteed to reach you in perfect condition.

ALL VARIETIES ON THIS PAGE SELF POLLINIZING

No. 144 FLAMING MONARCH

Gigantic blood red hardy cherry. Enormous bearer. Extremely hardy. Flaming Monarch perhaps should be classed as a tart cherry; however, when fruit is fully ripe it is sweet. Trees are of semi-dwarfish growth and 2 year old trees will absolutely bear fruit the first year after planted. Trees are perfect in growth, almost immune to disease. Flaming Monarch will bear enormous crops of gigantic, delicious fruit under very unfavorable conditions. Blossoms late, often producing fine crops when other varieties are killed by late frosts. It is an excellent shipper and always sells for top prices. Delicious to eat from hand, perfect canner, and makes most delicious pies and preserves. Its rich sparkling juice can be made into wine and alluring jellies. Trees are ornamental and beautify your home grounds. In springtime, they are perfect bowers of fragrant snow white loveliness; later when branches are bending with gigantic sparkling crimson fruit, they are most alluring and attractive. Plant our large, ready to bear, trees this year and gather gigantic fruits next year. Shown in natural color on back cover.

No. 146 MAJESTY

Team-mate to Flaming Monarch. Ripens two weeks later. Tree similar in habit of growth, fully as hardy and attractive. A perfect pollinizer for Flaming Monarch. Fruit is tremendous in size, often measuring an inch in diameter. Color, sparkling purplish red, turning blackish crimson when ripe. Its beauty in blossom and its alluring attractiveness when loaded with huge scarlet black fruit cannot be surpassed. Flaming Monarch, Gold Bond and Majestic make an ALL STAR CHERRY ORCHARD. Shown in its natural color on the back cover page.

Montmorency

Black Giant

Sweet Cherries

No. 148 BLACK GIANT

A huge sweet cherry that is really hardy. The fruit is immense size, glossy blackish crimson skin, sugary sweet and delicious, firm of supreme quality, juicy, very small seed. Far superior to any variety for pies, preserves, and canning. Most delicious when eaten fresh from the tree, Black Giant is creating a sensation all over America, young, heavy and regular bearing. Often fruit year after tree is planted. So sweet it may be canned or eaten as a dessert without sugar. If you wish the best, plant Black Giant.

No. 150 GOLD BOND

A New Gigantic Sweet Cherry

You will never know how good sweet cherries can taste until you grow the GOLD BOND IN YOUR OWN YARD. When you pick your first Gold Bond cherries you'll agree they are the most delicious cherries grown. EACH CHERRY IS A GIANT, GOLDEN YELLOW MORSEL OF GOODLYNESS. Its rich, sweet flavor with abundant juice and firm crisp flesh, makes it a most delicious and refreshing cherry for dessert. Its great size and attractive color causes it to sell on the market at fancy prices. For canning Gold Bond is the height of excellence. The cherries carry well and keep long. Even after ripe, the fruit clings tenaciously to the trees—and in home orchards can be used for ten to twelve days after ripening. Trees are very productive and come into bearing young. You often get a crop of fruit from the three year old trees. **EXTREMELY HARDY. Ripens Mid-Summer.**

THREE FINE BLIGHT RESISTANT PEARS

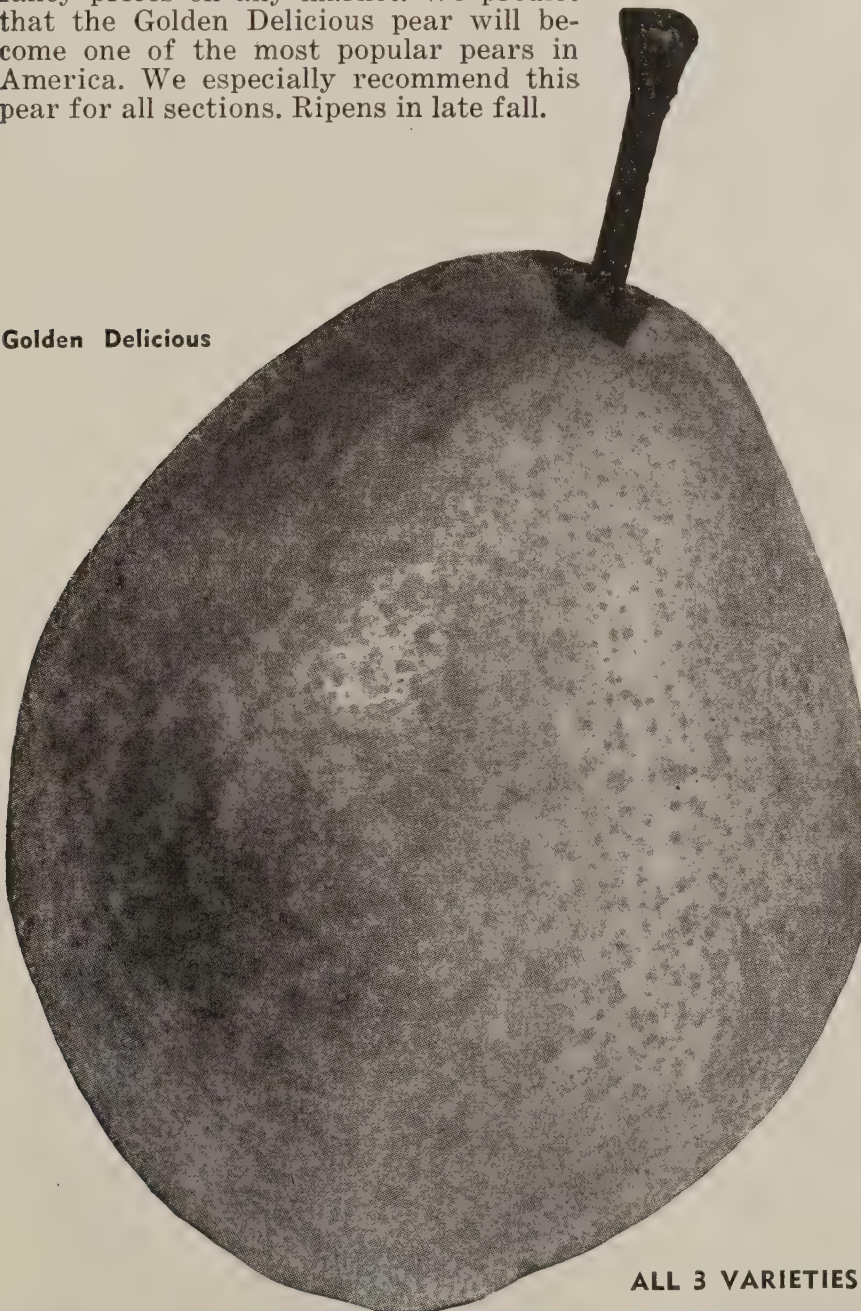

No. 161 LINCOLN

An old favorite with a proven, outstanding quality. Recommended for sections east of the Rocky Mountains and from the Great Lakes to the Gulf. A beautiful, large, golden yellow with a glowing red blush. Delicious fresh from tree, wonderful canner, trees thrifty, long lived. Bear young, resistant to blight. Ripens in late Summer.

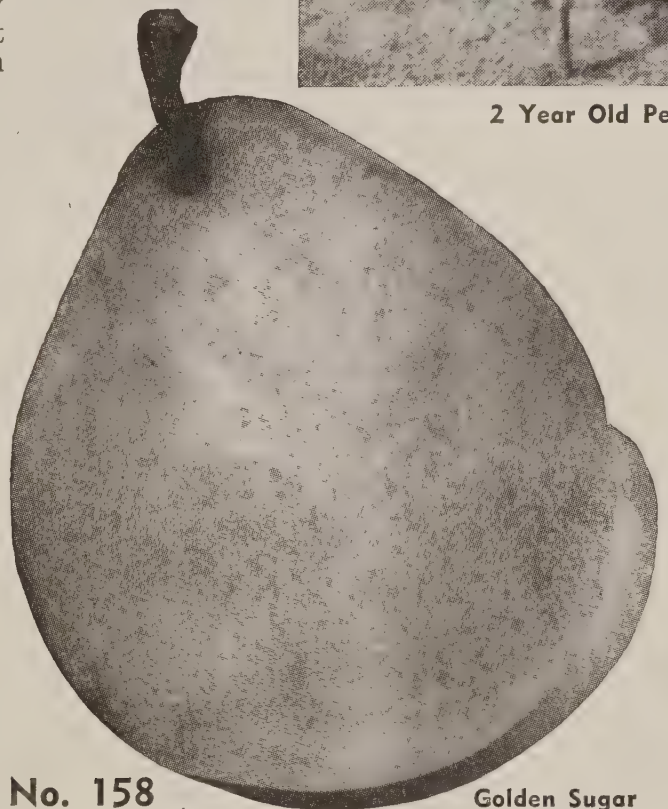

No. 160 GOLDEN DELICIOUS

Sweetest and richest of all pears. This wonderful delicious pear often produces fruit the year after planted. Bears regularly and produces heavy crops on all soils, extremely hardy. Fruit is extremely large (often weighs over a pound each), smooth beautiful golden yellow with a dazzling brilliant red cheek; juicy, spicy, melting with rich indescribable flavor. Tree upright in growth, blooms late. Ripens in late fall, holds up well on market and keeps until after midwinter. Probably the most satisfactory home orchard and kitchen pear. The highly colored fine flavored fruit which has but few seeds and practically no core, will sell for fancy prices on any market. We predict that the Golden Delicious pear will become one of the most popular pears in America. We especially recommend this pear for all sections. Ripens in late fall.

Golden Delicious

2 Year Old Pear Tree

No. 158

Golden Sugar

GOLDEN SUGAR PEAR

Ripens in early summer. Fruit medium in size, smooth, beautiful golden yellow, flecked with red and russet. Flesh has extra fine texture—free from graininess, very sweet, rich spicy flavor. Perhaps the most highly flavored pear grown. Tree is vigorous, erect, bears abundantly. Free from blight, has produced big crops in the same orchard where other varieties were killed back by blight. Very young bearer. Extremely hardy and will thrive almost any place in the United States.

Thrifty Disease-Free Trees. Thrive under unfavorable conditions. Easy to grow. Sure to produce each year. No crop failure—Another masterpiece of fruit breeding. Self Pollinizing.

No. 164. PURPLE GIANT—Hardest, sweetest and richest of all prunes. Largest—some measure 2½ inches long. Skin rich purple. Flesh golden clear yellow. Perfect free-stone, and never rots, but dries up on the trees. Vigorous, strong grower. Has never winter killed, even after 20 below zero bore heavily the following summer. This huge attractive purple prune is a wonderful shipper. Delicious when eaten from hand, sweet, juicy and rich, almost like liquid honey. Far superior to ordinary prunes. Every home should have a few trees of this wonderful variety. Very pretty tree for lawn or garden. The Purple Giant prune is hardy enough to be successfully grown in the extreme North. Trees begin to bear the second year.

READ WHAT THESE PEOPLE SAY

In shipments received from Bradley Brothers, I am highly satisfied and find them to be strictly true to their motto and pledge of honest service to their customers. Try them and be convinced.—Mrs. Ida Seal Cox, Brookville, Ind.

The Trees and Shrubs arrived in excellent condition. Am sure they will thrive.—Mrs. E. A. Lyons, Andrews, Ind.

I wish to say that I was very well satisfied with the Nursery Stock which I ordered from you. The fruit trees, which I received, were the largest, finest trees I have ever seen. A satisfied customer.—Miss Alfreda Burton, Assaria, Kansas.

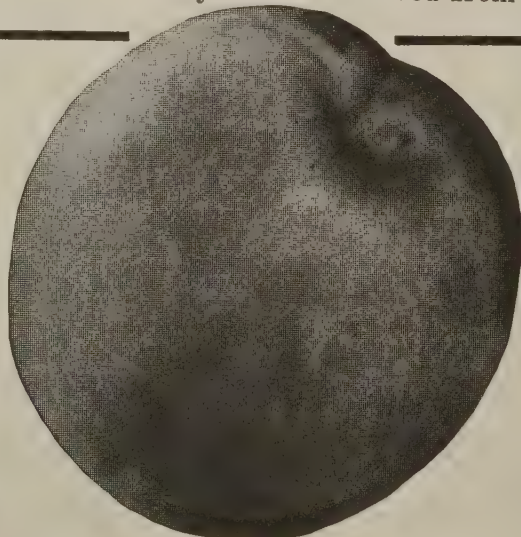

I am well pleased with the Nursery Stock I received from

you. Some of the trees had fruit on them the second year after planting. At this writing I have an Apricot loaded with fruit and a very young tree. Thanks for the good service, received from you.—Harry Westfall, Danville, Illinois.

Everything purchased from Bradley Brothers is very satisfactory and growing nicely.—K. C. Fitschen, Lansing, Iowa.

I am pleased to advise that the Nursery Stock purchased from you in the past has been very satisfactory. I am glad to recommend your Firm as one that I believe stands behind their stock as advertised in their Catalogue.—T. E. Boshier, Albany, Indiana.

BOSTON NECTARINE

ONE OF THE MOST DELICIOUS OF ALL FRUITS

The Nectarine has size and a smooth skin like the plum. In other ways it is more like a peach. It is of rich, delicious flavor, juicy and melting, and highly prized as a dessert fruit. It is much superior to the peach as a dryer and makes excellent preserves. The Nectarine is as hardy as the peach and requires the same culture.

No. 166. BOSTON—Bright yellow with red cheek; flesh yellow and of excellent quality. The finest of all Nectarines. Tree vigorous and an early bearer.

Select 4 to 5 ft. trees, \$2.18 each; 5 to 6 ft. trees, \$2.48 each.

Bradley's Select PLUM TREES

Easy to Grow—Bear Delicious Fruit in 2 Years
Our Thoroughly Tested Varieties Thrive Almost Any Place in the United States

Few people realize how easy it is to grow luscious plums. All summer long from June to September you can depend on our select varieties of plums for loads of juicy tempting fruit, delicious for contrast eating. And you can fill your pantry shelves with plum butter, wine red jelly and delicious preserves. Highly colored plums are ideal for canning. Plum trees are quick growing, early maturing, free from disease and very profitable bearers. Fancy plums always sell for big prices on the market. Plant a plum tree this spring and gather delicious highly colored fruit next summer. Our plum trees are especially fine this year. Plum trees are very ornamental, there is nothing more attractive than a plum tree in blossom, and when the branches are bending with highly colored fruit nothing could be more magnificent.

Plant Plums 15 feet apart each way for commercial orchards. In doorways and gardens where space is limited, Plums can be set 10 feet apart each way if pruned annually.

No. 168 **PURPLE GOLD PLUM**

A huge purple skin, golden fleshed plum of surpassing beauty. One of the largest plums known, some measuring 2½ inches across. The rich, semi-transparent creamy yellow flesh is crisp, sweet, fine grained, solid. An excellent shipper. Possesses a rich, sweet, delicate flavor, free from sharp acidity. Tree is a fine grower, good foliage, graceful upright shape. Bears extremely young and heavily every year. Fruit hangs tightly to tree with no sign of rot weeks after ripe. A PERFECT FREE STONE. The PURPLE GOLD possesses every good quality known to the plum family.

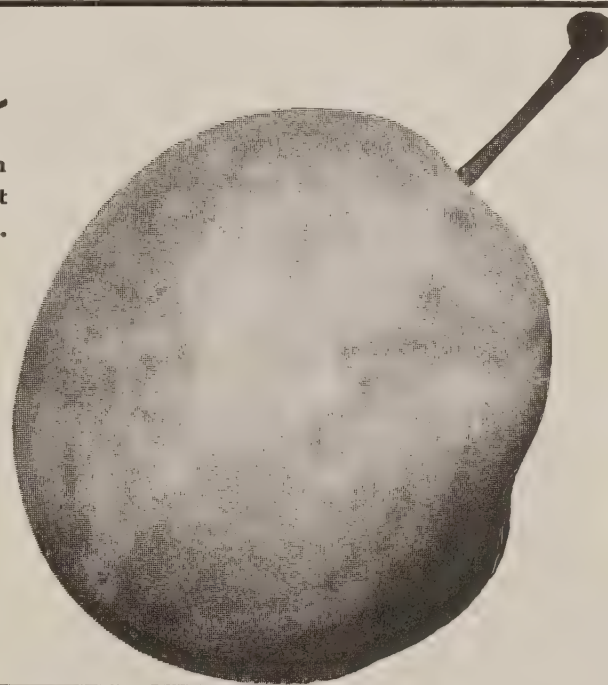

(See Back Cover Page)

No. 170 *Golden Giant Plum*

Easy to grow, sure to produce, disease resistant, hardy everywhere, often bears same year planted. Excellent, rich, spicy flavor. A masterpiece of fruit breeding for those who want the best. A team-mate to the Giant Crimson. Shown in its natural color and beauty on cover page.

Golden Giant. A huge plum with a pure golden skin of surpassing beauty. Its rich golden yellow flesh is free from all trace of red, firm, fine-grained, crisp. Possesses a sweet, rich, delicate spicy flavor, free from the sharp acidity of most plums. Golden Giant is without doubt the largest and handsomest of all plums, averaging 2½ to 3 inches in diameter. Ripens in August about two weeks after Giant Crimson. A very young heavy bearer, hardy vigorous grower. Wonderful for home or commercial orchard. When fruit is fully ripe it is a perfect freestone. Thrives in the extreme north and in the south where the summers are hot and dry. Golden Giant has never missed a crop, every year the trees are bowed almost to the ground with their GOLDEN load of beautiful luscious fruit.

**FOR PROFIT TODAY AND SECURITY TOMORROW
PLANT BRADLEY'S PLUM TREES**

No. 172

GIANT CRIMSON PLUM

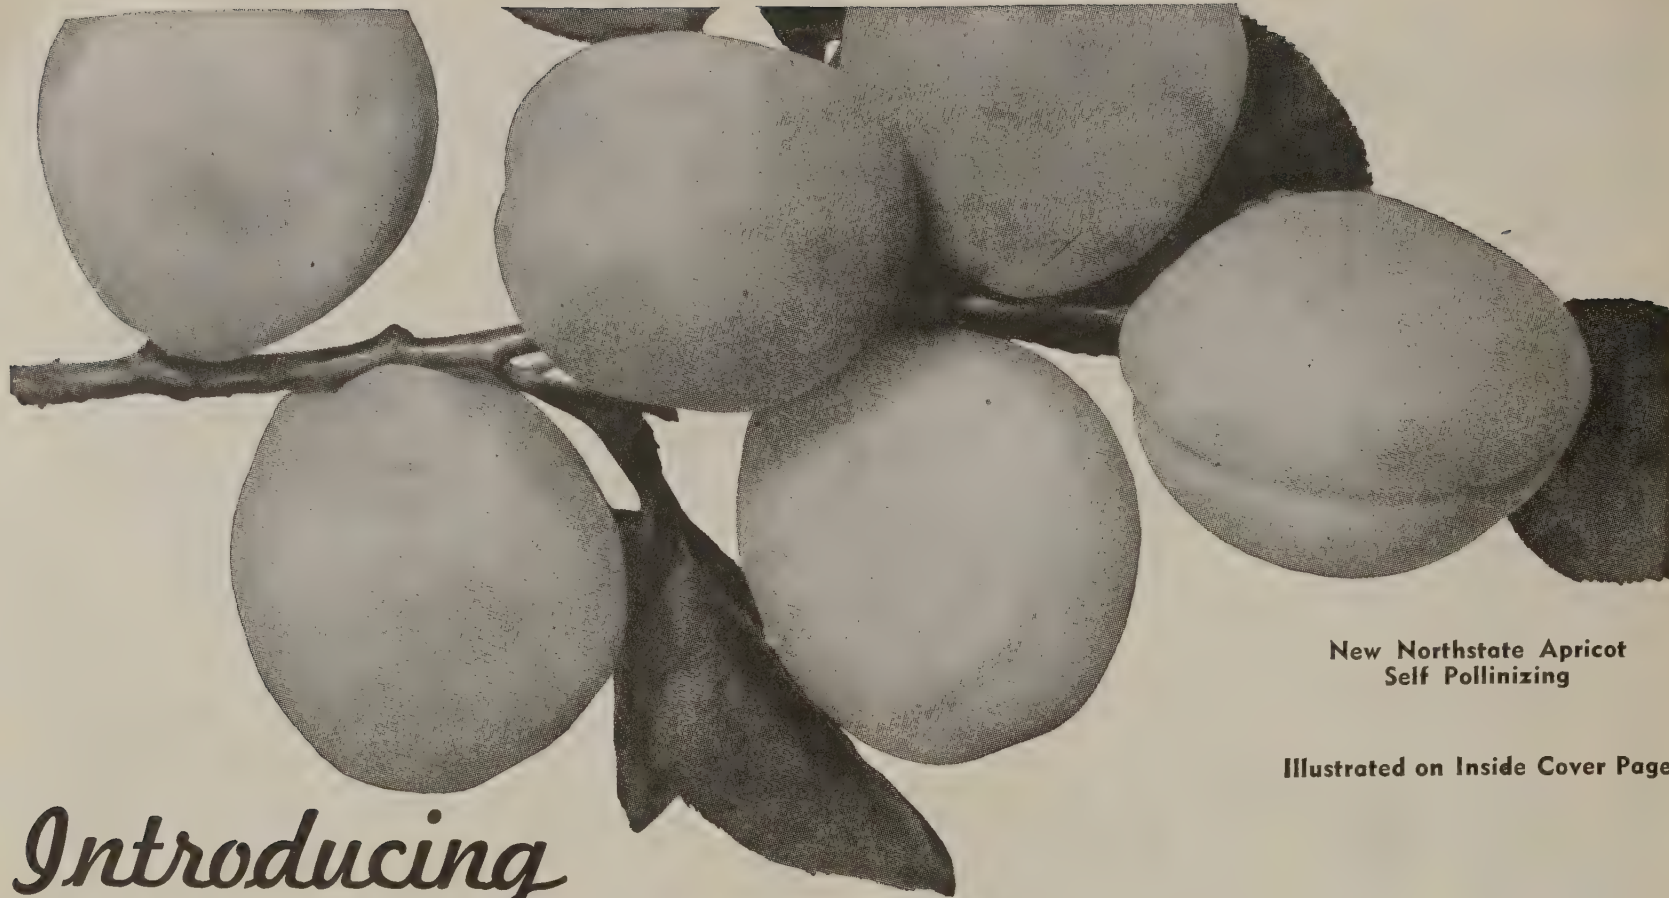

Sold exclusively by Bradley Brothers. America's largest red plum. Imagine a dark crimson plum 2½ inches in diameter—big as an average apple. A perfect freestone plum that you can break and eat like a peach. This most outstanding plum withstood 28 below zero, made a vigorous growth and yielded a big crop the following Summer. Trees bear young, often producing a good crop the year after planted. The immense fruit has a dark crimson skin, beautiful golden flesh, which possesses a most luscious, spicy flavor melting and rich. The elasticity of its constitution enables it to adapt itself to widely different soils and climates, its robustness, hardiness, productiveness and regularity of bearing make it ideal for any location or any purpose.

New Northstate Apricot
Self Pollinizing

Illustrated on Inside Cover Page

Introducing NORTHSTATE

No. 174 New Hardy Apricot

Here is a New Sensational Apricot. We have been working for many years to produce a large highly colored apricot which will blossom late and withstand the icy rigors of the Northern Winters, the uncertainties of the northern Springs and the heat and drouths of America's Summers. We have found this in the NORTHSTATE. This grand variety has two outstanding qualities which are possessed by no other apricot. First it is the most drouth resistant of all trees, it came through the terrible drouths of 1933, 1935 and 1936 with flying colors—full foliage and no apparent effect of the terrible heat. It came through this with a full crop of fruit.

The Second is that Northstate is hardy enough for the extreme north.

The extremely large fruit is often more than 2½ inches in diameter. It is a deep golden yellow with a sparkling crimson cheek, a perfect freestone, has a delicious rich spicy flavor, and produces heavy annual crops.

BE THE FIRST TO GROW BIG GOLDEN YELLOW DELICIOUS APRICOTS IN YOUR NEIGHBORHOOD. But order early because our supply is limited this year. In order to give as many of our customers as possible this grand apricot we will not accept an order from one customer for more than 50 Northstate trees this year. Remember, first come first served.

Save 2 to 3 years by planting Bradley's Super size 5 to 6 feet Jumbo trees.

5 to 6 Jumbo-Super size.....	2.54 each	2.48 each

Pineapple
Quince

HARDY QUINCES

That Bear Heavily

Quinces ought to be grown more largely, as there is no finer fruit for syrup, jellies, preserving, and canning. They are easy to grow and need but little attention, bear heavily and regularly and are a highly profitable crop, since in all markets the demand for good quinces is never fully supplied. Both the fruit and flowers are quite fragrant and the trees and bloom highly ornamental. Plant 10 feet apart each way. The trees begin to bear two years after planting.

No. 176. PINEAPPLE—We consider this by far the best Quince. The tree is healthy, hardy, and very prolific, and comes in bearing when two years old. Size is enormous, weighing over one pound each. The flavor is suggestive of the Pineapple; in flavor, texture and quality it is unapproached; delightfully fragrant; fine for baking; canned or dried it retains the quince-apple flavor. Can be eaten like an apple, and is by far the best variety for jellies and preserving. Trees thrifty, healthy, and never fail to produce large crops.

PRICE ON HARDY PINEAPPLE QUINCE TREES

3 to 5 feet.....	\$2.98 each

READ WHAT THESE PEOPLE SAY

I am proud to say that I have never bought nicer fruit trees and shrubs from any Company and I am a most satisfied customer.—W. W. Oglesby, Sr., Harrisburg, N.C.

I am satisfied with all your Stock, Service and dealing. You may add my name to your long list of satisfied customers.—Frank L. Engle, Salisbury, Pa.

I am well pleased with the trees purchased from you, they are growing fine.—Garrett Childers, Torrent, Kentucky.

I was well pleased with the Nursery Stock I received from you this Spring. We also appreciate your sending the different items at their correct planting time. We find your service very efficient.—W. V. Rice, Ashland, Kentucky.

You may place my name in your 1946 Catalogue as a satisfied customer.—Dr. W. H. Knott, Jasper, Missouri.

I am pleased to say that the Nursery Stock purchased from your Firm is do-

ing fine and that I have found the service rendered by you the best.—Mr. J. Eldon Spahr, M.D., Indianapolis, Indiana.

The shipment of trees I received was satisfactory. They are coming along O.K.—E. J. Hamlin, Huntington, West Virginia.

My order of trees was grand. Thanks for the prompt and efficient service. I'll not forget you when I need more trees.—Mrs. Fern Martin, Brownsville, Ind.

Thanks for your Catalogue and may I say again, that the finest fruit trees I have ever seen, at any price, came from Bradley Brothers.—Hal M. Sullenberger, Amarillo, Texas.

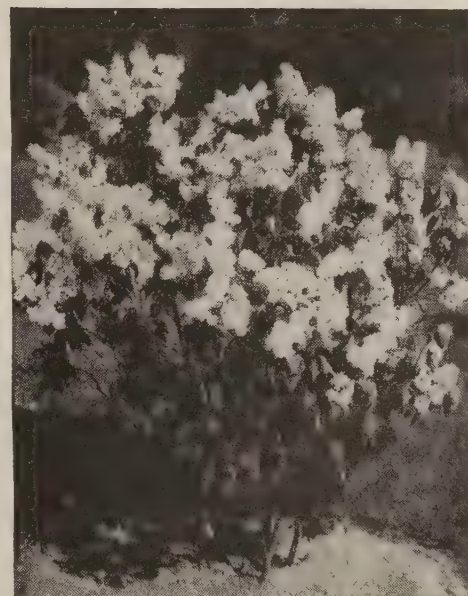

My dealings with you, and the Nursery Stock, have proved absolutely satisfactory. You may place me on your list of satisfied customers. I shall be glad to recommend your Nursery Stock to any one.—L. E. Davidson, 1954 Lamont Avenue, Columbus, Ohio.

No. 181

WAYFARING TREE

Viburnum Lantana—Attractive, rare, distinctive large shrub or small tree, 10 to 15 feet at maturity.

Beautiful dark green, wrinkled leaves and tree is covered with a mass of pure white, attractive flowers in early Spring, followed by a mass of bright red fruit changing to black. This unusual, handsome shrub should be in all the better, outstanding plantings. Is hardy and will thrive in almost any soil. Withstands the cold in the North and the hot dry weather of the South. Retains its foliage very late. **Select First Quality 4 to 5 foot trees, \$1.58 each; 2 or more trees, \$1.53 each.**

PECAN**

No. 184

ALLSTATE PECAN

The Pecan Trees we sell, under the name of Allstate, are as sturdy as an Oak and one of the hardiest Pecans we have ever grown. Yields big crops of the most delicious nuts. The nuts are as large as most varieties of the so-called Paper Shell nuts, which are grown in the Southern States. Kernels plump and of the finest quality, having a delicious flavor and can easily be taken out of the shell in halves.

Trees have more vigor and vitality than any other variety known to us. Rapid in growth and usually begin bearing young. Trees are very attractive for lawns or shade, as they do not shed their large, deep green leaves until late Fall.

Trees will thrive in almost all types of good soil. We call this variety Allstate as it can be successfully grown in some sections of almost all States. Allstate is a self pollinizing variety.

Commercially, Pecan Trees are a profitable investment. Pecans are one of the most widely used nuts and the prices in the store are usually high. If you wish to make an investment that will pay you big profits for many years, plant a Pecan Grove. We suggest that Pecan Trees be planted 25 to 30 feet apart. Why not plant your own Pecan Trees and have the satisfaction of raising your own Pecans?

Planting Instructions for Pecan and Walnut Trees

A Pecan Tree should be planted in a hole large enough to take roots without cramping them and the hole should be deep enough so that the tree will be about one inch deeper than it was in the Nursery Row. Place the tree in the hole, then fill the hole about three-fourths full of good, loose soil. Then finish filling the hole with water, let this soak down and again fill with water. After the water has soaked down the second time, finish filling the hole with good soil. In planting in this manner the soil will be firm around the roots, keeping out any air spaces which is the cause of many Pecan and Walnut Trees failing to grow. After care of the trees will be given in the planting instructions, which will be attached to each shipment.

U. S. Highway 61,
Kimmswick, Missouri,
March 29, 1944.

Bradley Brothers Nursery,
Carbondale, Illinois.

Gentlemen:

It is always a source of pardonable pride to realize that our efforts are successful and that others appreciate our efforts in their behalf. Let me assure you I was much pleased with the nursery stock received from you only a few days ago; as a matter of fact, I have always been pleased with any purchase obtained from Bradley Brothers. Here let me say that the "All state" pecan trees purchased from you some three or four years ago have grown like "weeds" and are a source of much pleasure and pride to me.

When the weather moderates a little, I shall ask that you supply me with some additional trees and shrubs.

Sincerely,

W. R. DUPREE, M.D.

When You Plant Nut Trees You Are Making a Permanent Investment

HARDY BLACK WALNUT

Most desirable as a shade tree, but also valued for its delicious and nutritious nuts. The nuts are large, with white kernels useful in many fresh desserts and confections. Black Walnut Trees are hardy anywhere in North America where other types of trees grow. They thrive best in sunny, well drained soil. Grow to be 100 feet tall in rich soil. Make round, shapely heads, with swaying fronds of graceful, pinnate leaves. Quick growing, long lived Walnut Trees are often grown for their valuable timber. The wood from this tree takes a fine polish, in our opinion, superior to any timber. There is a wonderful opportunity in growing this tree for timber, or for nuts. There is always a good market for large, Black Walnuts. Trees are highly productive.

PRICES

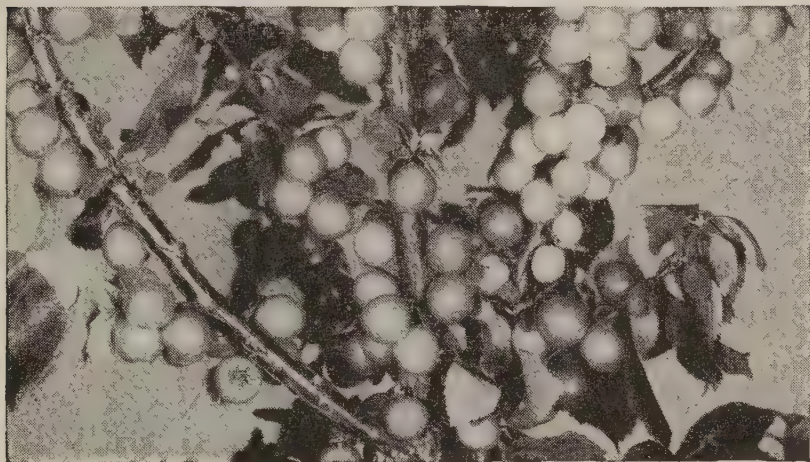

Small trees for reforestation:

2 to 3 feet trees, 10 for \$3.50; 25 for \$7.00; 100 for \$25.00.

Select well developed specimen trees:

3 to 4 feet, 98c each; 2 or more 95c each.

Heavy 4 to 5 feet trees, \$1.98 each; 2 or more \$1.95 each.

Nanking Cherry

No. 197 NANKING CHERRY

A BEAUTIFUL AND ORNAMENTAL shrub for your lawn that bears great crops of delicious fine cherries. Fruit is so abundant it takes but a few minutes to pick a quart or two right in your own yard. The delicious fresh fruit is excellent for making pies or superb sparkling jelly. The attractive, shapely bushes grow from 6 to 7 feet tall, work well into a planting about the house, or a shrub border. Fragrant, apple blossom pink, but appear early and open to pure white. Our strong, sturdy bushes start bearing year after planted and second year branches are bending and literally covered with sparkling bright red superb cherries for pies, jelly and jam. Beauty plus delicious fruit. Plant at least two bushes to insure pollination.

Strong 3 to 4 feet Bushes, 2 for \$2.80; Extra Heavy Bearing Size, 4 to 5 feet Bushes, 2 for \$3.80.

Filberts

Black Walnut Tree

HARDY FRUITING MULBERRY TREES

No. 196. NEW AMERICAN—The most beautiful tree for ornamental planting. All summer and fall it bears clusters of large, jet black, delicious berries, which are wonderful for eating fresh out of hand, and make the most excellent jams and jellies. Tree a very rapid grower, entirely hardy and easily transplanted. Very attractive in any location; it makes a large, wide spreading graceful shade tree. Fruits continuously from May to August. For shade, beauty, attractiveness, and excellent fruit, plant the Mulberry tree. Price, large 4 to 5 ft. trees, \$1.48 each. Self Pollinizing.

No. 94 PAW PAW (Northern Banana)

A small handsome tree with large purple flowers which are very beautiful and fragrant and large dark green foliage which makes it a handsome tree for the park or lawn. Produces large yellow fruit which has the flavor and shape of the banana and is very delicious and attractive. Tree very hardy and productive. Can be grown in most sections of the United States. Should be planted in every lawn and garden. Price—strong, healthy, well developed trees, 4 to 5 ft., \$1.50 each. Self Pollinizing.

No. 191 FILBERT (Corylus Americana)

An attractive Shrub, or low growing bushy tree, producing abundant crops of delicious nuts the shape and size illustrated. Nuts have a tender, sweet, round kernel, very nutritious, often used to replace meat in the diet. Bushes have wide leaves, which color to bronze in Autumn. Will grow in almost any location or any type soil. Profitable to plant as a shrub or to use as a screen or background. Grows to be from 6 to 8 feet tall.

Price—Strong 3 to 4 feet bushes 85c each, 3 or more 80c each. Self Pollinizing.

Cardinal

GRAPE VINES

A LIFETIME INVESTMENT

A Lifetime of pleasure and profit from one planting.
What can offer you more for such small investment?

Grapes are easy to grow, thrive on any type of soil, and in most sections of the U.S.A., require but little care. Complete instructions for planting attached to shipment. Instructions for pruning, staking, cultivation, in fact, everything you need to know for growing prize-winning grapes, attached to shipment. Our Big Thirty 2-year-old vines planted this year will bear fruit next year, and continue to do so each year thereafter. Nothing is more delicious than grape jam, jelly, wine, or juice for the winter. Nothing more delicious than fine ripened grapes eaten from the hand.

A grape arbor will give you a fine shady place, is very beautiful, and will bear bushels of delicious fruit. Bradley's Grape vines are known in every section of the nation for their fast growing and heavy bearing.

RED GRAPES

No. 200. CARDINAL—A Beautiful Flashing Gigantic Red Grape. One of the finest and most delicious grapes in cultivation today. Bunches extra large, very compact and solid, berries are huge, thin skin, seed few and small, separate freely from pulp. There is no grape with a more delicious flavor. Here is a grape for those who demand the best. Vines vigorous growers, thrive in any kind of soil and in most sections of the U.S.A. Enormously productive, very often yield from 40 to 50 pounds per vine. Finest for home, most profitable commercial grape, ideal jelly, very delicious when canned. Our large Cardinal Vines often bear year after planted. Shown in its natural size and color on cover page. America's finest, newest and largest grape. Be sure to plant a few Cardinal vines this year. We guarantee them to please. Ripens early.

No. 202. LUCILLE—Early Red. A dark red grape, medium to large berry and bunch, excellent quality, keeps well and ships well. In vigor, health, hardiness, productiveness, it is surpassed by no other variety, and it is practically immune for fungus diseases. It is one of the most beautiful hardy grapes and it sells at high prices. Should be in every home vineyard.

No. 207. CACO—Fruit very large on handsome complete bunches; a rich wine-red over amber. Exceptionally early. Its flavor is luscious and sweet.

No. 206. ROYAL PURPLE—Without any question is one of the finest grapes. It has the most delicious flavor and is of the highest quality of any grape we have ever tasted. Bunches extra large, very compact and solid; berry extra large, thin skin; seeds few and very small, separate freely from the tender pulp. The fruit sells in open market for top prices. The vine is a vigorous grower, enormously productive.

BLACK GRAPES

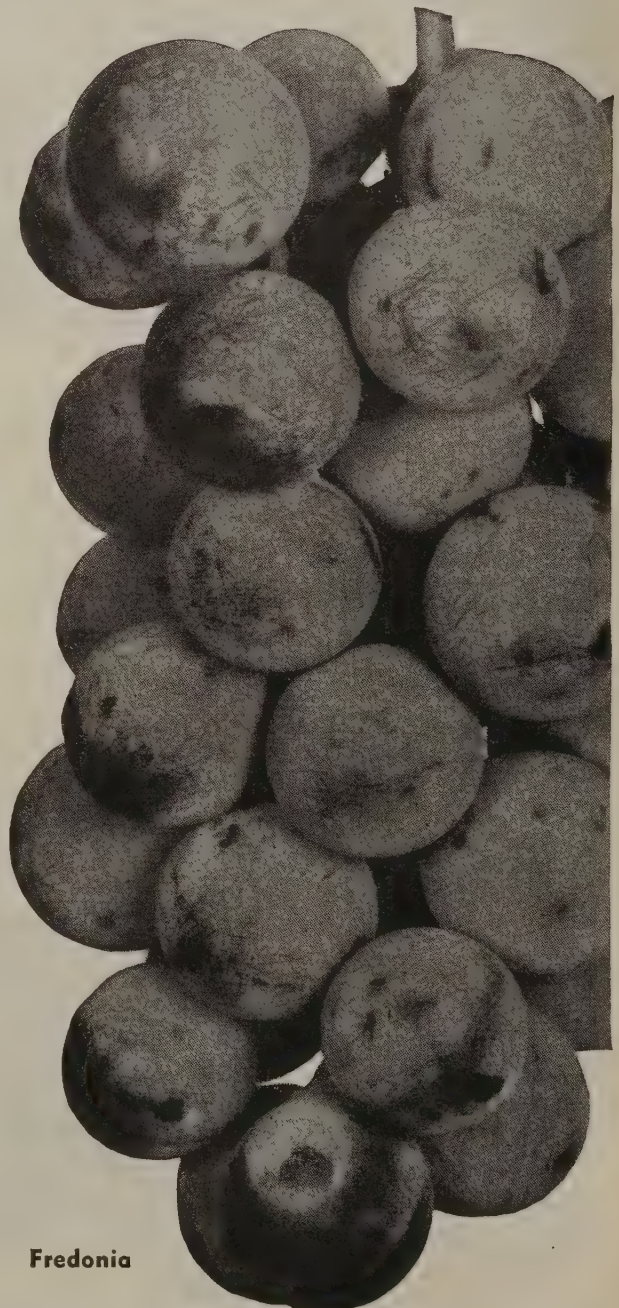

No. 208. VAN BUREN—New! Extra Early Market Grape! Best blue variety ever developed for the commercial grower. Quality superior to Concord and ripens with the earliest varieties grown.

Van Buren produces fully as heavy a crop as Concord; large, compact bunches. Berry a rich, dark-blue color, sweet and juicy. Makes an excellent wine grape, and is superb for jelly and jam. You simply cannot appreciate this great new variety until you've seen it fruit. Better order a few now. We sold out early last year. See inside cover page.

No. 210. FREDONIA—Blue-Black. The earliest fancy blue-black grape for market. Produces large bunches and large berries. Pungent, spicy, delightful flavor and fragrance. An excellent keeper, and big producer. Vines are hardy and young bearers. One of the best dessert sorts.

No. 212. HUBBARD—One of the earliest of blacks. Peculiar sweet flavor. Hardy, prolific.

No. 214. CONCORD—Black with blue bloom. An old tested bearer and hardy. There is more than 100 times more of this Grape grown than any other. It is the leading wine and market Grape.

Fredonia

WHITE GRAPES

No. 216. PORTLAND—New York Experiment Station production. Earliest White Grape in existence. Color white, resembles Niagara in shape and berry. Ripens 2 weeks earlier, in fact, brings the white Grape market ahead 2 weeks. This is a real find for the local market seller to get some real prices for his fruit. It is sweet, hardy, and a real No. 1 Grape.

No. 218. NIAGARA—"The White Concord." One of the most widely planted and the best known White grape. Vine ranks with Concord in vigor and productivity. Bunch is large, the fruit a wonderful flavor.

No. 220. GOLDEN MUSCAT—After years of plant breeding, scientists have succeeded in crossing the white California Muscat Grape with our hardy northern varieties and have given us Golden Muscat. The berries are golden yellow in color, large and meaty, with very few seeds, which separate easily from the pulp. The branches are large and heavy. Excellent quality and fine flavor.

Giant—Hybrid—Blueberries

Profitable—Beautiful—Very Ornamental, Once Planted Last a Lifetime

See Inside Front Cover Page

The following varieties of Blueberries produce juicy delicious berries two to three times as large as the Common Blueberries, resembling in size a bunch of grapes and sell on the market for 40c to 60c a quart.

They are beautiful ornamental bushes reaching 6 to 8 feet in height, according to variety. The pinkish white bell shaped blossoms and long narrow dark green foliage that turns to a sparkling coppery red in the fall is Glorious.

During the summer the rich Satiny Green foliage is a background for the Big clusters of Royal Blueberries.

Easy to grow. The New Hybrid varieties of blueberries are easy to grow. Simply set them about 5 feet apart. Moist soil is O.K. but with mulching they will thrive on high, dry land of most any type.

Blueberries do best in acid soil. Peat moss, rotted leaves, sawdust, woodland soil, aluminum, sulphate, or rotted logs will supply the acid. About one-third bushel of Peat Moss, Woodland soil, sawdust, rotted leaves or logs, mixed with two-thirds soil should be placed in the holes around the roots when set.

Two varieties must be planted to pollinate.

One variety planted alone would not bear, hence we do not accept orders for only one variety.

THREE PROVEN VARIETIES

After years of experimenting and scientific testing we find the three following varieties to be the BEST. And they will thrive and bear fine fruit in all sections of the U.S.A. You are sure of success when you plant Rancocas, Rubel and Jersey.

Description of Varieties Listed in Order of Ripening

No. 270. RANCOCAS. The bush of slender, vigorous, upright habit, rarely surpasses five feet in height. The winter twigs are a dark red. The berries are somewhat larger than those of Rubel and begin to ripen several days earlier.

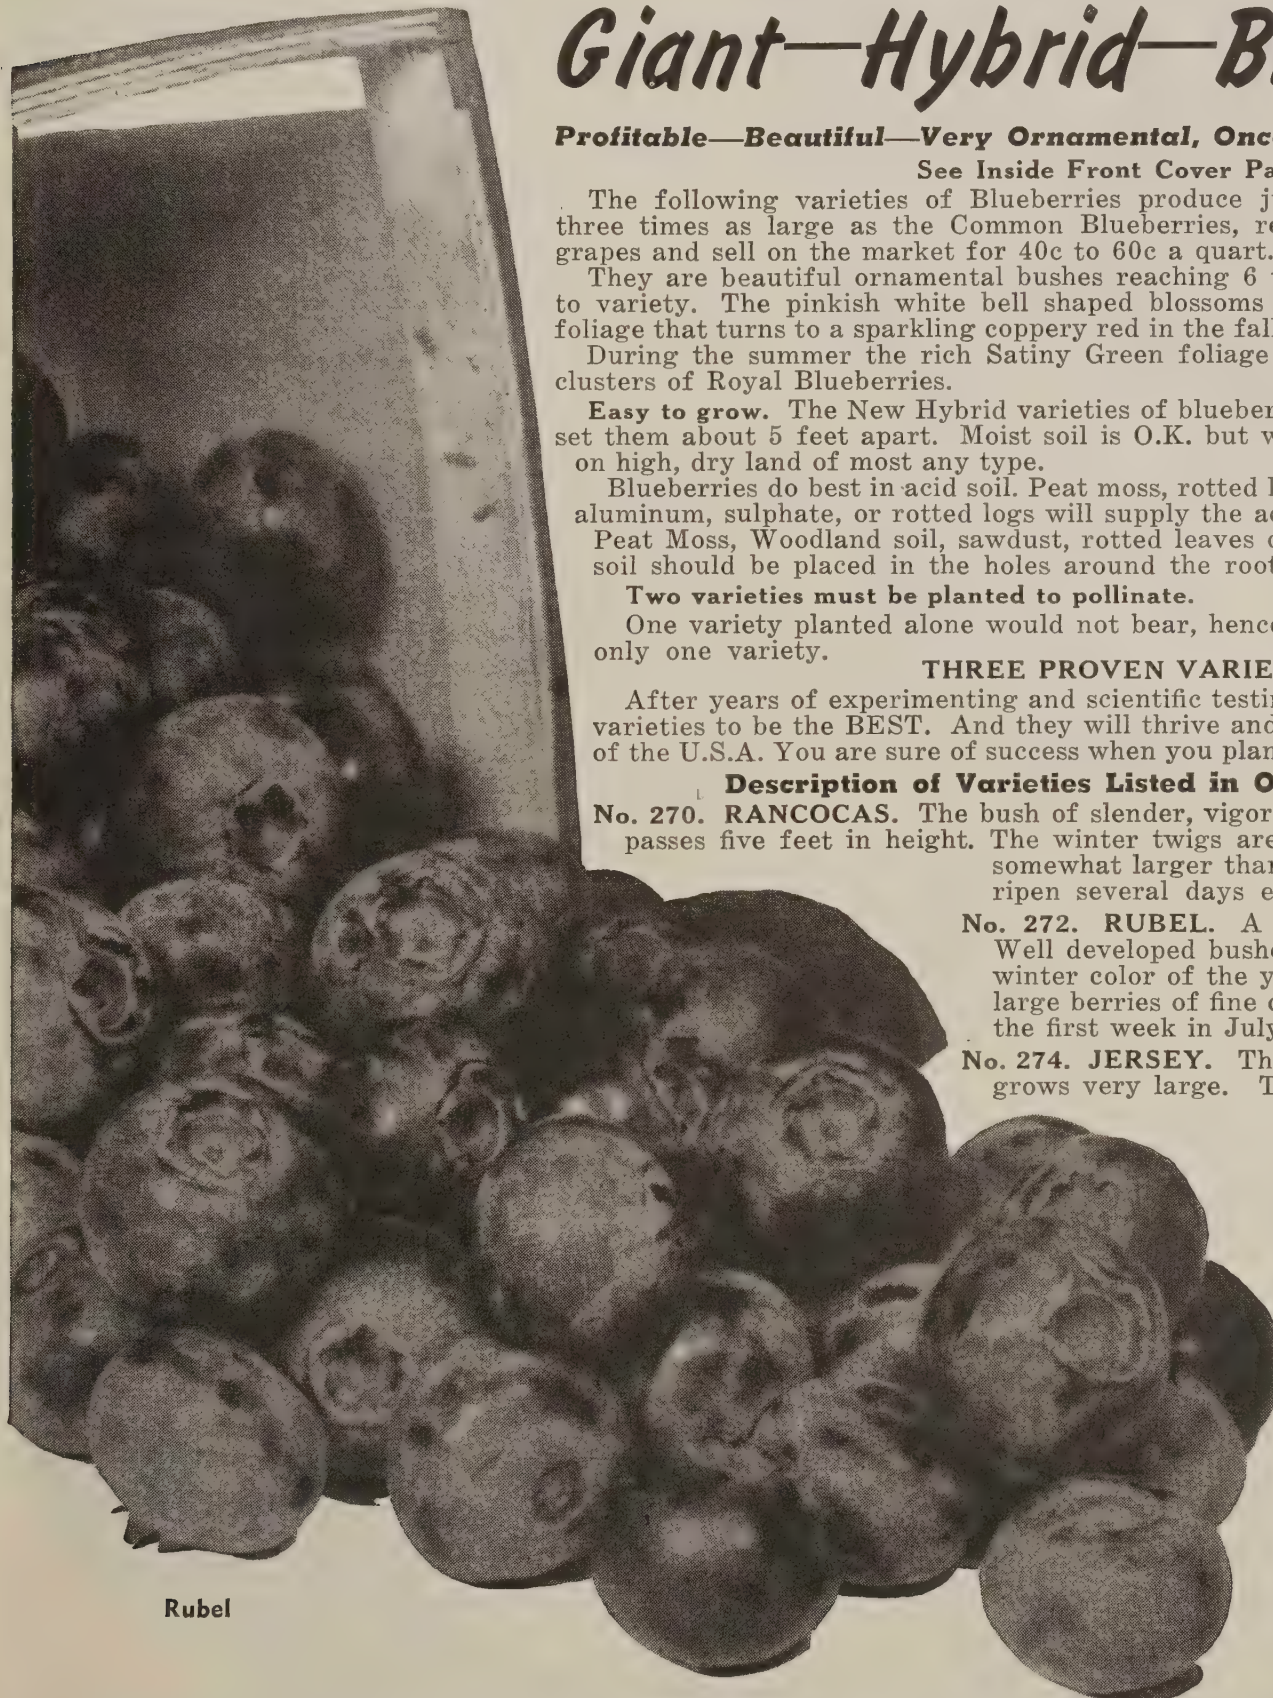

No. 272. RUBEL. A vigorous, productive variety. Well developed bushes stand six feet high and the winter color of the young wood is a rich red. The large berries of fine color are usually ready to pick the first week in July. Best commercial variety.

No. 274. JERSEY. The bush is of vigorous habit and grows very large. The winter color of the young growth is a light red over golden brown. The berries are the largest of any here listed, light blue and ripen about the same time as Rubel.

BLUEBERRY PRICES

Price Select well branched 3 year old bushes about 1 foot high, 2 for \$4.50; 3 for \$6.00; 6 for \$10.00.

Price Extra Select heavy well branched. Ready to Bear, 4 year old bushes more than a foot high, 2 for \$5.48; 3 for \$7.94; 6 for \$14.98.

Rubel

Bradley's Raspberries

Northern Grown—Fresh Dug

PAY BIG PROFITS—Easy to grow, require but little attention, should be in home garden, full instruction will be with shipment. If you plant Bradley's strong ready-to-bear plants and follow our simple instructions, your success is assured. We offer only varieties which are guaranteed to succeed.

BLACK RASPBERRIES

No. 234. BLACK GIANT—A new black Raspberry, which has proven to be one of the hardiest Raspberries we have ever grown. We believe it will withstand the Winters, even in the extreme North, and can be grown in any section of the U.S.A. where any other Raspberry can be grown. This variety will thrive in almost any kind of good soil and its deep growing root system enables it to withstand hot, dry seasons, which makes it an ideal variety for the extreme South, as well as the North. The big, jet black berries are firm, sweet and have a most delicious flavor. Black Giant berries always bring top market prices. We believe Black Giant yields more fruit to the bush than any other black Raspberry. Wherever you live we recommend Black Giant above any other variety.

No. 236. CUMBERLAND—The old reliable standard black raspberry. Thrives everywhere, has withstood 25 degrees below zero uninjured. Berries unusually large, firm, jet black. Cumberland is the most extensively grown.

PRICES ON BRADLEY'S BIG, STURDY, QUICK TO BEAR RASPBERRY PLANTS. Satisfaction Guaranteed.

RED RASPBERRIES

No. 238. INDIAN SUMMER—The Giant New Everbearing Red Raspberry. Earliest to ripen in the spring, bearing another crop of berries in late summer and fall. The berries are long and deep red, small cavity, slightly irregular, rich in flavor. Surpasses all everbearing red raspberries. Plants are tall, heavy growers, hardy, disease resistant, heavy producers. Wonderful for home use and profitable for market. See illustration in natural size and color on inside front cover, our favorite variety. If you are not more than pleased with Indian Summer Everbearing—your money will cheerfully be refunded. You take no risk in buying Indian Summer Raspberry plants from Bradley Brothers. See inside front cover page.

No. 240. FLAMING GIANT—Hardest red raspberry known to mankind, and the most delicious. A wonderful berry for the far north and also succeeds in the far south. Fruit twice as large as most other red raspberries of brilliant color and deliciously rich in flavor. Ripens its enormous crop over a long season. Strong, sturdy grower with extra heavy upright canes; blossoms and fruit to the very tips. Has never been known to winter kill even in the upper northern sections of Minnesota and North Dakota. Highly resistant to insects and Mosaic Free. Berries sell readily at a premium on the market—a profit getter—Flaming Giant is one of the best shippers, hold their shape without crumbling and never turn dark. A delightful table berry and a perfect canner, when canned they retain their brilliant rich crimson color. See inside front cover.

No. 242. GIANT LATHAM—Most popular of all red raspberries. The fruit is large, many an inch long, firm, and delicious in flavor whether eaten fresh or as preserves, jam and sauce. A strong, vigorous grower that bears enormous crops.

Flaming Giant

Everbearing Blackberry DESOTO

No. 232

Ripe Fruit for 4 Months—Often Bears Same Year Planted—Sold Only By Bradley Brothers

DeSoto big thrifty robust plants begin bearing huge, delicious berries in July and continue until winter.

Berries enormous in size, often measuring more than 2 inches long. Glistening jet-black in color. Finest spicy flavor. Honey sweet. Has but few small seeds. No core.

Money Back Guarantee

Why wait two years for blackberries?

Our big ready-to-bear DeSoto plants often bear in only a few weeks after planted and continue all summer and fall.

The big robust plants grow like weeds, will thrive in any kind of soil and bear enormous crops in most sections of the nation. Once planted will last a lifetime.

We guarantee the DeSoto blackberry to grow and bear big crops of fruit, and to be free of rust or other blackberry diseases. When you buy DeSoto blackberry plants, you get big crops of fruit.

DeSoto plants will give you a fine supply of huge, delicious berries, every day for about four months out of each year. The big robust plants are so thrifty they will not be affected by either hot, dry or wet weather. Illustrated on Inside Front Cover.

Several years ago a customer of DeSoto, Illinois, told us of blackberries growing in his and his neighbor's gardens which were yielding a supply of huge delicious berries for about four months every year. Upon investigation we bought the plants and began a series of tests. DeSoto exceeded our "Rosiest Expectations." It not only bore all Summer and Fall, but the berries were much larger and more highly flavored than those produced on the original plants which had been growing in the same location for more than 15 years, during which time they received practically no cultivation. Despite the neglect, the fifteen year old plants were literally loaded with huge, delicious berries throughout the entire Summer and Fall. DeSoto has never been attacked by either insect pests or disease. You can plant a few DeSoto plants in your back yard or along your garden fence and can serve the huge delicious berries to your friends for more than four months each year. Remember this year Health Giving Delicious Fruit is most important. Be sure to plant some DeSoto Blackberries. Order them early so you can plant early and have berries this Summer. **Extra Large Ready to Bear DeSoto Plants. Each 60c; 3 for \$1.48; 6 for \$2.00; 12 for \$3.98; 25 for \$7.00; 26 or more 25c each.**

TEXAS FARM EDITOR visited Mr. T. S. Ehlert's farm while Mr. Ehlert was picking Blackberries from DeSoto Vines which he secured from us. Below is a photographic copy of a letter from the Farm Editor. Also the photographs of a Single DeSoto Vine.

PATTISON, July 22.—(Sp)—**PICKING BLACKBERRIES IN THE SUMMER** is a regular business for Theo. S. Ehlert of Pattison. With this new blackberry, the DeSoto, Mr. Ehlert will have berries for market until way up in September. This vine is four years old and the farmer has to have a stepladder to pick the berries from the top. Buds, blooms, green berries and ripe berries are on this vine right now..

PART OF THE ARTICLE WRITTEN BY MR. DAVID J. MORRIS, FARM AND RANCH EDITOR OF THE HOUSTON POST:

Houston Post, Sunday, July 23, 1944, by David J. Morris, Farm-Ranch Editor. While visiting Mr. T. S. Ehlert's farm we had the pleasure of picking Blackberries from Vines that will continue to bear Blackberries until September. In fact, with the coming on of Dewberries in the spring, followed by the Native Blackberry and then these special new berries Mr. Ehlert has, he can pick berries six months out of each year.

Mr. Ehlert stated, "This new berry I have is called DE SOTO, an everbearing blackberry. It was discovered by Bradley Brothers Nursery of Carbondale, Illinois, and from them I got ten vines. So far I have found them immune to disease and insects in this area, and right now I have ripe berries, green berries, blooms and bloom buds all on the same vine. Thus far I have picked 162 pounds of berries from these vines, and I am picking about two pounds of berries a day now."

Bradley Brothers Nursery
Carbondale, Illinois

Dear Sirs:

Recently I visited the farm of T.S. Ehlert of Pattison, Texas. Mr. Ehlert was picking blackberries from vines which he had secured from you here in the summer time and I presume is still gathering fruit from them.

I have acreage in South Houston where I would like to put out a half dozen or so of these DeSoto berries this fall and possibly other of your stock. Will you please send me a catalogue and price list.

Am enclosing a tear sheet and a photograph of one of the single DeSoto berry vines that Mr. Ehlert owns.

Sincerely,

David J. Morris,
Post Farm Editor

BLACKBERRIES

No. 224. EARLY MAMMOTH—The earliest gigantic blackberry in cultivation, ripening with raspberries. The gigantic long berries are meaty, sweet, mild, of exquisite flavor and surpassing in quality; rich in sugar and free from the bitter taste contained in many blackberries; firm and free from any hard core. Its early ripening, large size and fine appearance make it one of the most profitable commercial berries, sells on the market for top prices. Enormously productive, producing 400 cases of 24 pints per acre. Fruit holds its large size through the entire season. We stand behind this grand variety. **Pays up to \$500.00 per acre.**

No. 230. ELDORADO—Berries large, jet black, borne in large clusters and ripen well together; they are very sweet, melting, have no hard core and keep for eight or ten days after picking with quality unimpaired.

PRICES ON BRADLEY'S BIG READY-TO-BEAR FIRST QUALITY BLACKBERRY PLANTS

Everbearing Strawberries

Bradley's Believe the Following Varieties Surpass All Others.
Bear Delicious Berries 60 to 90 Days After Planted.

Early
Mammoth

Bradley's
Scarlet

No. 260 BRADLEY'S SCARLET

This is the variety we believe is the world's finest Everbearing Strawberry. Plants usually began bearing GIGANTIC, SUGARY SWEET, LUSCIOUS, BERRIES WITHIN 60 DAYS AFTER PLANTED and continue to bear until COLD weather. The big, sturdy plants are loaded with gigantic berries every day from late May to late Fall. When you plant Bradley's Scarlet you are assured of big crops of the largest, sweetest and finest flavored fruit that can be grown. Berries are red all the way through. Flavor thrills you. If you have only a few feet of ground in your backyard, plant Bradley's Scarlet.

Price: 25 plants \$1.98; 50 plants \$3.50; 100 Plants \$6.50.

No. 262 BRADLEY'S MAGIC

This huge, luscious, deep crimson berry is, in our opinion, one of the finest Everbearing varieties grown. The big, sturdy plants you set this Spring should, within 60 days, be loaded with the largest and most delicious berries you have ever eaten. Magic berries hold their large size all Summer and Fall up to freezing weather. Magic is drought resisting and seems to have a magic power to keep on growing and bearing during the hot, dry weather. You have never tasted a real delicious Strawberry until you pick the luscious, fully ripe berries from your Magic Plants.

Price: 25 Plants \$1.98; 50 Plants \$3.50; 100 Plants \$6.50.

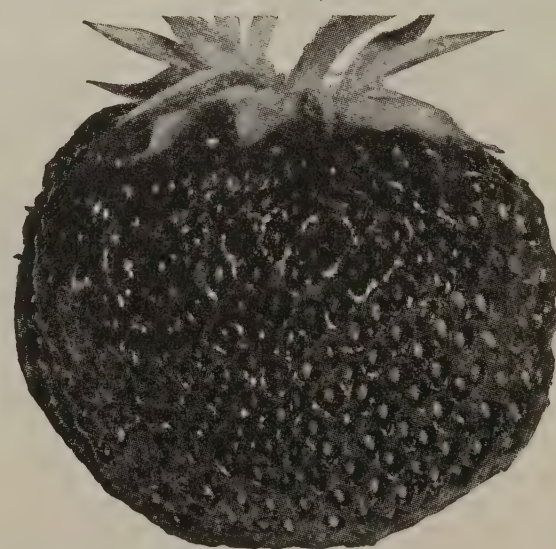

No. 265 NEW STREAMLINER

This new Everbearer has everything; enormous size, rich red color, excellent flavor, honey sweet, big producer. A wonderful variety for eating fresh, excellent for canning and freezing. Bears for 2 or 3 months year planted, and again next Spring, Summer and Fall.

Price: 25 plants \$2.00; 50 plants \$3.75; 100 plants \$7.00.

Bradley's ~ Best of all STRAWBERRIES

**YOU CAN GROW
STRAWBERRIES
FOR LESS THAN
2c A QUART**

Bradley's have made a specialty of growing big, heavy yielding Strawberry Plants for many years and we firmly believe we offer the best Strawberry Plants that it is possible to grow. **YOU CAN NOT BUY BETTER PLANTS ANY PLACE AT ANY PRICE.** When you plant our big, heavy yielding plants, Strawberries are easy to grow. With each shipment of plants we attach complete instructions how to plant and how to grow big crops. Plant Strawberry Plants, for home use, in rows 2 feet apart and one foot apart in the row. For commercial fields, plant in rows three feet apart and 18 inches apart in the row. We offer only self pollinizing varieties so it is not necessary to plant more than one variety. Please place your order for Strawberry Plants early as the supply is limited.

No. 244. VIRGINIA—A remarkable heavy yielding Midseason drought resistant Strawberry. Especially recommended for the Central, Southern and Eastern States. The quality of the fruit is unsurpassed. The flavor is wonderful, gigantic in size, has a rich scarlet color with fresh green cap. One of the most attractive strawberries. Tremendously productive.

No. 246. DAYBREAK—A grand, new extra early variety, originated by the U. S. Dept. of Horticulture. It ripens about 10 days earlier than the best early varieties of strawberries; its bright glossy color, fine flavor and attractive appearance causes it to bring extra high prices. It is firm, holds up well in shipment and retains an attractive appearance several days after being picked. Plants are vigorous, very productive and thrive under almost any conditions.

No. 248. BLAKEMORE—Extra Early. Extra-early, bright-red berry favored for large-scale planting and long-distance shipping. Stands adverse weather conditions, drought, etc. Always bears a big crop of firm, flavorful fruit. Self-pollinizing.

No. 250. PREMIER—A valuable extra early Strawberry. A large berry of uniform shape and size, excellent quality, rich color and highly resistant to frost. These qualities make Premier a profitable market variety.

No. 252. SENATOR DUNLAP—The old standby. A mid-season variety that grows on all types of soil and in all climates. A good producer and a fine berry.

No. 254. JEWELL—Here is a variety which has been tested in almost every section of the U.S. Has made a wonderful showing, berries are large, firm, highly flavored. Has a long fruiting season. Giant delicious berries for several weeks. Plants vigorous, very productive.

No. 256. CATSKILL—(Midseason). An ideal Midseason berry—Because of its size, flavor, heavy yield, vigorous growth, and its adaptability to a wide range of soils and climates. Catskill berries are huge in size, deliciously flavored. Bright glowing red in color. Each berry matures to uniform size and shape. Colors evenly, firm in flesh and skin, they withstand long shipping. We recommend Catskill to those who wish to grow large fancy Strawberries.

The New Hardy Boysenberry

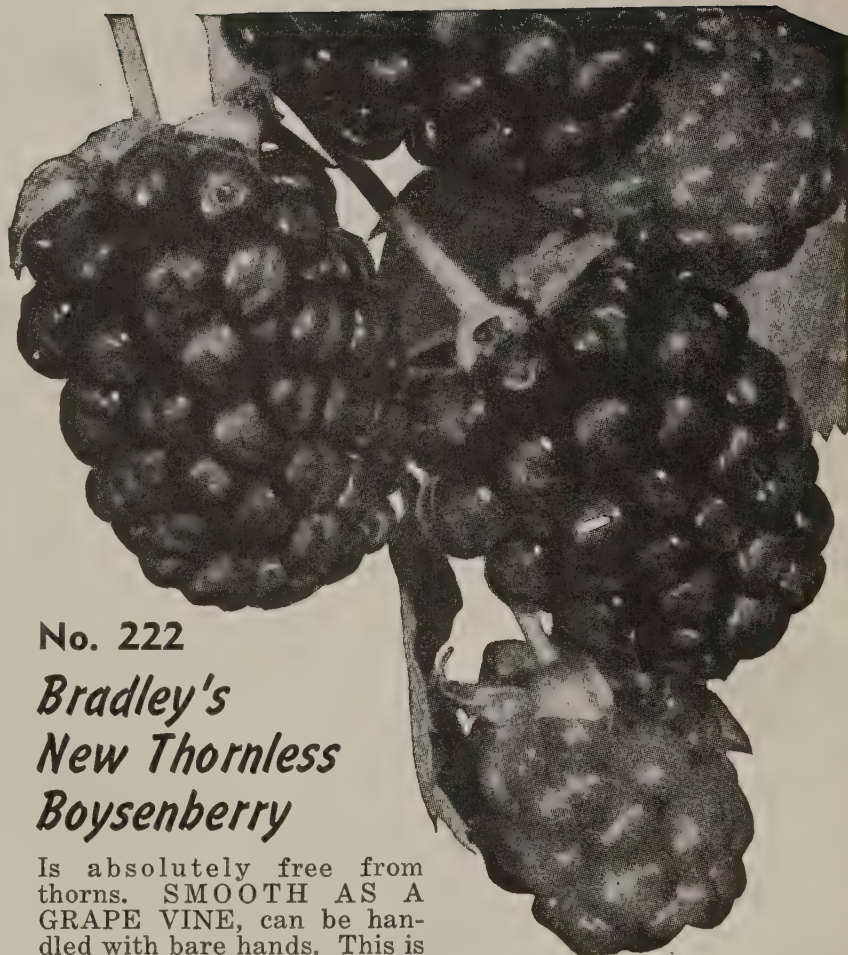

FRUIT GIGANTIC IN SIZE. OFTEN MEASURES 2½ INCHES IN LENGTH

THE SENSATIONAL NEW BOYSENBERRY is a cross between the Loganberry, red raspberry and blackberry. Think of a berry that has a little of each of these fruits all in one gigantic, nearly seedless, beautiful wine-colored berry, with a very distinctive delicious flavor that you will never forget. They are sugary-sweet and juicy, yet firm enough to stand handling. No berry will compare with it delicious, enticing flavor when made into sparkling jelly, jam, marmalade or canned. For pies it cannot be excelled. Its beautiful sparkling juice may be made into a most delicious drink when mixed with four parts of water. The New Boysenberry is such an improvement over the Youngberry that we no longer grow the Youngberry. It is sweeter, has a better flavor, and more productive.

BIG, QUICK profits in Growing Boysenberries. The demand is terrific. For frozen fruits, commercial pie baking, canners, preservers, ice cream manufacturers, high class hotels and restaurants are in the market for more gigantic, luscious Boysenberries than can be grown. They sell on any market at extra high prices. One grower sells his entire crop of Boysenberries for 50c per quart. Whether you are growing berries for the market or just a few in your garden, place them on your 1946 MUST LIST.

How to Grow Boysenberry

Prepare the soil in the same manner as you would your garden. Set plants 7 ft. apart each way, as heavy root system spreads out a considerable distance. The Boysenberry makes a very thrifty growth the first year, often 10 ft. Let the vine creep on the ground the first year. In the extreme North, cover the vines with straw or leaves just before hard freezes begin. This is just to be on the safe side. In the spring remove the covering, and when the vines commence to bud tie the vines to a trellis or wire stretched on post about 2½ feet from ground. Posts should be about 4 feet high, the second wire should be at top of post. Right after fruiting cut old vines down to ground. Then burn them, this throws all the strength into the new vines, which will produce the fruit crop the next year. Repeat this practice year after year. Follow these instructions and big crops of fruit are sure every year.

No. 222

Bradley's New Thornless Boysenberry

Is absolutely free from thorns. **SMOOTH AS A GRAPE VINE**, can be handled with bare hands. This is a great advantage in cultivation and in placing the vines on a trellis and most of all, in picking the Huge, Delicious fruit. Once you grow the Thornless Boysenberry, you will never plant any other kind.

Price: Select well rooted plants, each 60c; 3 for \$1.48; 6 for \$2.00; 12 for \$3.98; 25 for \$7.00; 26 or more 25c each.

Boysenberry is no longer an experiment, it has been tested in almost every type of soil and in almost every state in the Union. The results have been most pleasing.

No. 280

Rhubarb

McDONALD—The finest rhubarb money can buy! Bright cherry red color, full length of long stems. Tremendously productive, very tender, rich, spicy flavor. Do not peel. McDonald is so tender, peeling is not necessary. In sauce and pies it will stay bright red, presenting a very appetizing appearance. **McDONALD Rhubarb** is one of the most profitable items one can grow. The huge bright red stems get 2 feet long and 1½ inches thick. It attracts special attention on any market. **Price, Strong divisions ready to bear, Each, 70c; 3 for \$1.98; 10 or more, 60c each.** See inside front cover page.

DELICIOUS, TENDER ASPARAGUS

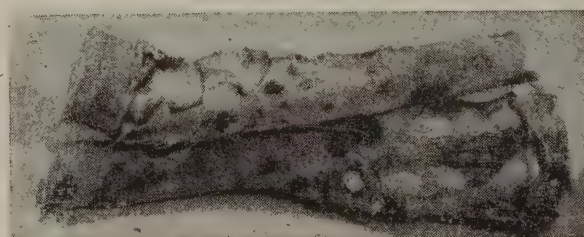

Fresh from Your Own Garden

No. 276 GENUINE GIANT MARY WASHINGTON

You know how good fresh home grown asparagus tastes. It is very healthful, rich in minerals and vitamins. Every garden should have some. Only takes a little room. Set the plants 18 inches apart. This is an improved strain of the Mary Washington. Produces very large stalks, many an inch or more through. They keep right on coming up, lots of them, for almost 3 months. They are extremely tender and do not get tough early, as so many varieties do. They have the most delicious flavor. Rust-proof and will last a lifetime. Very easy to grow. **Price, Select 2-year Giant Mary Washington Asparagus Crowns, 12 for \$1.50; 25 for \$3.00; 100 for \$8.00.** If interested in more than 100, write for special prices.

CULTURAL DIRECTIONS

Plant Asparagus Crowns in a furrow 6 to 10 inches deep, and space the roots 12 to 18 inches apart in the row. Rows should be 3 to 4 feet apart. When the plants are set, cover only about 2 inches deep. As they grow, work more dirt to them until the furrow is filled! This gets the crowns down deep, so they will not be injured by cutting. Allow the plants to fern (grow tall tops) each Summer and Fall, to permit them to recuperate and be ready for cutting the following Spring.

No. 278 HORSERADISH

BOHEMIAN HORSERADISH—Best of all Horseradish. Thrives in any garden soil. Valuable for relishes and appetizers. Grates up fine and tender. White as snow, and as strong as a lion. Set the roots straight up and down. Leave the top of the root about one inch below the surface. Every garden should have horseradish, very profitable as a commercial crop. Crowns will make big roots in one year. **Crowns, 2 for 50c; 6 for \$1.25; 12 for \$2.25.**

SHADE AND FLOWERING TREES

No. 283 PIN OAK

This magnificent tree is one of America's finest. The most rapid growing Oak grown and loved from the Atlantic to the Pacific. This noble tree has no superior for lawn or street planting. The tree is attractive, even when small, as they are well shaped and so perfect in growth. Its beautifully carved foliage, of deep waxen green, is most attractive in Spring and Summer. In the Fall its foliage turns to a sparkling, brilliant red, making it one of Nature's most gorgeous sights. This strong, sturdy, hard wood tree withstands wind storms which damage many other trees, is long lived, living for 100 years or more. This is one Oak which has fibrous roots and is easily transplanted. Develops a handsome, tall branching, pyramid tree 50 to 60 feet at maturity.

EXTRA SELECT STURDY 5 to 6 feet trees, \$2.98 each.

No. 290 NIOBE GOLDEN WEEPING WILLOW

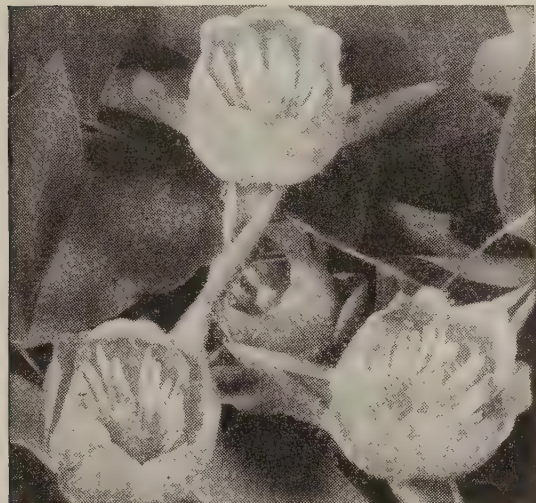

Gracefully drooping branches and a golden colored bark make Niobe Golden Weeping Willow a most attractive tree in both winter and summer. The branches often droop clear to the ground and the golden bark is lovely to see the year around. Niobe is a rapid grower. Attractive when planted in a prominent place, as shown in the picture, and especially attractive near a lily pool or a rock garden. 3-4 ft. trees, \$1.25; 4-5 ft. trees, \$1.50; 5-6 ft. trees, \$2.25.

Niobe Weeping Willow

No. 294 NATIVE RED BUD OR JUDAS TREE

A small tree of refined type. Most desirable for planting in lawn or borders. The tree is a mass of bright red in early spring before leaves appear. Select 3 to 4 ft. trees, \$1.60 each; extra large, 4 to 5 ft. specimen trees, \$2.25 each.

Tulip Tree Blossoms

No. 292 TULIP TREE

(*Liriodendron tulipifera*)

One of the grandest of our native trees. It grows into a tall pyramid with broad, glossy, fiddle-shaped leaves of a clean, rather bluish gray shade, which in fall turns bright yellow. Beautiful, light orange-yellow, Tulip-like flowers, 1½ to 2 inches long, appear magically over the tree in May and June. 4 to 6 ft. heavy rooted trees, \$2.35.

Magnolia Soulangeana

Magnolia

No. 340. SCARLET MAGNOLIA (*Magnolia Soulangeana Nigra*)—One of the hardiest and finest of all Magnolias. Can be grown successfully throughout North America. In midspring, before the leaves unfold, the great flurry of flower buds suddenly burst open revealing enormous Chalice-shaped flowers often five inches or more across composed of eight or more huge, waxy scarlet petals. For several weeks the magnificent display endures, and then the flowers are gone as suddenly as they came, and the trees assume a mantle of attractive glossy waxy foliage which lasts in good condition until late autumn. Scarlet Magnolia grows rapidly and is easy to establish. 12 to 18 inch plants \$2.25 each.

No. 342. CHINESE MAGNOLIA (*Magnolia Soulangeana*)—This variety is very hardy and easy to grow. The tree is neatly rounded; grows to be from 10 to 15 feet high. Its downward sweeping branches almost touch the ground in early Spring before the leaves unfurl when covered with huge waxy flowers, often 6 inches or more across. Its waxy white petals are strongly tinged with purple and rose. This magnificent tree is found only in the most expensive plantings; however, this year we offer 12 to 18 inch plants \$2.10 each.

No. 293

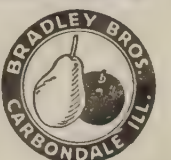

CHINESE ELM TREES

Because of its beauty and extremely rapid growth, the Chinese Elm has become the most popular shade tree. It is planted in every state, standing intense cold and extreme heat equally well. Under ordinary conditions, it makes excellent shade in 5 years. The tree pictured is nearly 40 feet tall and was planted just 7 years ago. Our trees were grown in wide rows. They are nicely branched, extra heavily rooted, the finest Chinese Elm we ever grew. They will please you and, what is more important, will make you fine shade in such a short time. There are hundreds of thousands of homes which would be so much more attractive and so much more comfortable if some of Bradley's fast-growing Chinese Elm trees were planted in the yard.

Large transplanted trees, heavily branched and heavily rooted. 5 to 6 ft. trees \$1.98 each; Extra Select, 6 to 8 ft. trees, \$2.48 each.

Chinese Elm

RARE FLOWERING TREES

Rose Tree of China

Rose Tree of China

No. 296. PRUNUS TRILOBA—One of the most beautiful and showy of all small trees. It begins to bloom before the leaves appear in the spring, being literally covered with very double rose-like flowers. This symmetrically formed graceful little tree grows usually to a height of but 6 feet and is attractive as a specimen or when planted in groups or shrub border. It is hardy and easy to grow, and no lawn is so small that room cannot be found for at least one of these wonderful, new small trees. Many who see them declare they are the most beautiful trees they have ever seen. The large rose-like blossoms make fine cut flowers. **Select 3 to 4 ft. trees, \$2.40 each.**

SCARLET LEAF ROSE TREE OF CHINA

No. 298. PRUNUS BLIRIANA—This glorious tree is almost identical with the Prunus Triloba ROSE TREE OF CHINA except its leaves are a brilliant scarlet in the Spring; changing to a deep maroon in Summer and a magnificent bronze in Autumn. Its branches are literally covered with double rose pink blooms in the early Spring before the leaves appear. The beautiful flowers are followed by clusters of scarlet fruit which is very delicious when eaten fresh and makes the prettiest and finest flavored jelly and marmalade we have eaten. The deep scarlet fruit is also very delicious and attractive when canned. This beautiful and useful shrub will thrive in your lawn. Its scarlet leaves are glorious, especially against the rising or setting sun. **Price, select, extra heavy, 4 to 5 feet trees, \$2.85 each.**

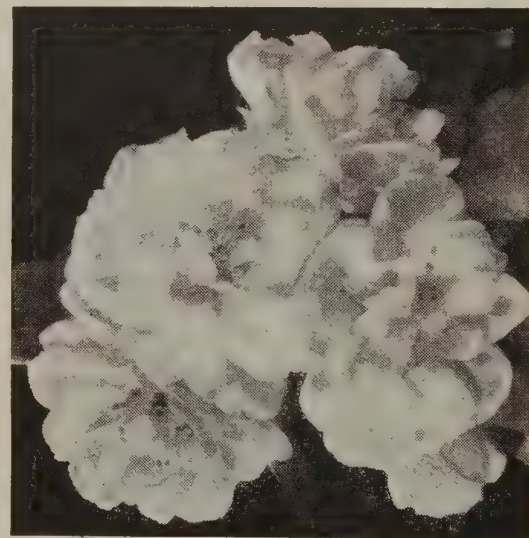

Gorgeous Flowering Crab Apple

Most useful and most attractive hardy Flowering trees. The Flowering Crab Apples are becoming the most popular group of Ornamental trees in North America. They are extremely hardy, free from disease and thrive in all sections of the Nation. Our varieties exhibit a gorgeous range of color in blossom, fruit and foliage. In the Spring they are adorned with gorgeous flowers and foliage, in the Autumn with glittering fruit. The fruit is tasty and makes highly colored, delicious jelly, sauce and preserves. Beauty, Shade and Fruit all in one tree.

No. 300. PINK ROSE BECHTEL'S DOUBLE FLOWERING—The only full Double Flowering Crab, often called the PINK ROSE TREE. In the Spring when the tree is completely covered with a mass of perfectly double, rich, rose-like flowers, it is, in fact, a fine shaped little tree covered with Roses. Exceedingly graceful, seldom grows more than 12 feet tall. Ideal tree for small lawn. Its GORGEOUS display of rose-like flowers perfumes the entire neighborhood. Here is a tree that you will be proud of. It is extremely hardy, will thrive under all conditions in the South, Central and Northern States, in rich or poor soil, in shade, or in full sun. Wherever you have a vacant space of 12 to 14 feet, plant this Crab. It is guaranteed to satisfy. **Large, neatly shaped, well branched Blooming Size, 3 to 4 feet trees, \$2.86 each.**

No. 302. HOPA — A gorgeous tree which will reward you with loads of delicious sparkling fruit. Seldom grows over 15 feet high. Excellent for lawn decoration. When in blossom it is completely covered with semi-double, rich, reddish pink rose-like flowers, scenting the atmosphere for a long distance with a delicate perfume unsurpassed. In Autumn when its branches are bending almost to the ground with clusters of bright red delicious fruit, it will attract the admiration of all who pass. The fruit will hang on the tree until freezing weather. Its bronze green foliage is always attractive. Useful, most gorgeous small ornamental tree that should be in every lawn. **Select Extra Heavy Bearing Age, 4 to 5 feet trees, \$2.38.**

No. 306. PURPLE GLORY—Our most beautiful, brilliant, flowering Crab. Most attractive rich reddish purple foliage in the Spring and Summer, turning to a most gorgeous Purple Bronze in Autumn. Huge Semi-double Purple Flowers often more than 2½ inches across. This gorgeous tree has a graceful charm the entire Spring, Summer and Fall. In the Spring a marvelous display of glorious color, in Autumn its branches bend with huge clusters of richly colored reddish purple delicious fruit. Tree neat, pyramidal in growth, about 12 feet at maturity. Will grow and thrive in any location. Its sparkling fruit makes delicious, highly flavored and brightly colored jelly, preserves and sauce. Purple Glory is sure to please, we Guarantee it. **Select Specimen well branched Bearing Size, 4 to 5 feet trees, \$2.56 each.**

Purple Glory Crab

No. 310 ALTHEA, ROSE OF SHARON

A tall growing shrub, sometimes reaching a height of 10 to 12 feet. Fine in a group of single specimen planting. It blooms freely from July until frost. Your choice of colors, red, white, or pink. State color. **Special select specimen bushes ready to bloom, 3-4 feet, 98c each; 2 or more, 90c each.**

No. 314 TAMARIX, HISPIDA

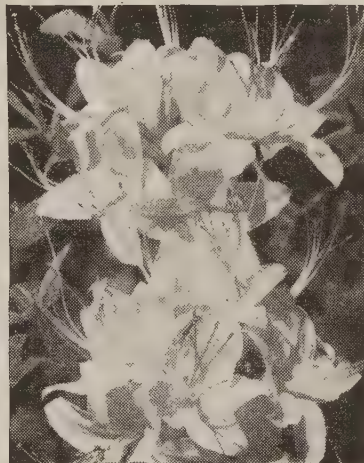

By far the best Tamarix. Very dense, silvery-blue feathery foliage. Bright pink flowers all summer. If not pruned will grow 10 to 15 feet tall, but it can be kept trimmed to a much lower height. Grows in sun or shade, in wet or dry places. One of our best shrubs. **2 year 3-4 ft. Bushes, 98c each.**

AND SHRUBS

May Day Tree

Azalea Scarlet

No. 284 NEW! MAY DAY TREE

(*Prunus padus commutata*).

Early Spring's Beauty Winner. And what a lovely thing it is, when during March and April it is a massive bouquet of long, snow-white, very fragrant flowers—way before other trees are in leaf or have a sign of bloom. These handsome clustered blooms are fine for cutting. Then later on, small fruits develop that are edible and make good jelly, though birds quickly claim them in preference to other, more valuable fruit. Grows rapidly, and may be trimmed up for street or lawn shade tree or left in bush form. Perfectly hardy, as it originated in Siberia. 3-4 ft. specimens, \$1.58 each; 4 to 5 ft., \$1.98.

No. 336 AZALEA SCARLET

America's most brilliant and most beautiful flowering shrub. Dwarf, very compact, grows 3 to 4 feet in height. In April and May it is completely covered with a mass of large, Brilliant Scarlet Flowers. The entire shrub is a Solid Mass of Bright Crimson Color. In summer its heavy glossy foliage is attractive. In Autumn the foliage turns first to vivid scarlet, later to bronze, holds its foliage all Winter. Can be grown successfully in most sections. Plant in good, well drained, slightly acid soil and in partial shade. We offer Extra Select 4 year old Bushes which will be covered with a mass of blossoms this year soon after planted. **Price \$3.98 each.** Bushes will be shipped with the proper type of soil in which they grew burlapped around the roots.

New Hardy CRAPE MYRTLE

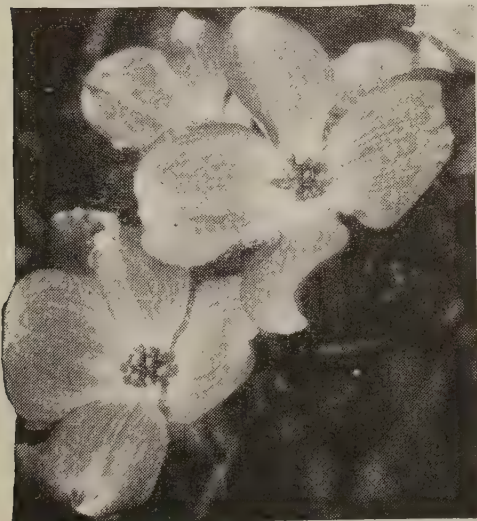

BLOOMS CONTINUOUSLY FROM MID-SUMMER TO FROST. IMMENSE, ATTRACTIVE, BRILLIANT FLOWERS FOR THREE MONTHS.

Crape Myrtle, the South's most beautiful Shrub, can now be grown successfully in the North. We have secured a strain which is much hardier. In the extreme Northern States, grow it just like Everblooming Roses, giving it Winter protection by mounding up dirt about 8 inches high before severely cold weather. In Spring, uncover. Like Roses, Crape Myrtle makes its blooms on new wood and if the tops are killed back to the ground, it will send up new tops in the Spring, which will be covered with huge blossoms from July to frost. **Select Ready To Bloom 1½ to 2 ft. bushes, 90c each; Extra Heavy, Top Quality, 2 to 3 ft. bushes, \$1.28 each. All colors same price.**

- No. 316A Hardy Watermelon Red
- No. 316B Hardy Apple Blossom Pink
- No. 316C Hardy Snow White
- No. 316D Hardy Lilac Purple
- No. 316E Hardy Dwarf Lavender-Blue

No. 288 *White Flowering* DOGWOOD

One of the most beautiful of all our native trees. Flowers are large white and produced in clusters before leaves appear, the flowers are followed in the Fall by numerous red berries and Autumn color of foliage is quite brilliant. A fine specimen tree for lawn. Attractive when planted with Red Bud. **Select 3 to 4 ft., \$2.18 each; extra heavy 4 to 5 ft., \$2.98 each.**

Red Flowering Dogwood

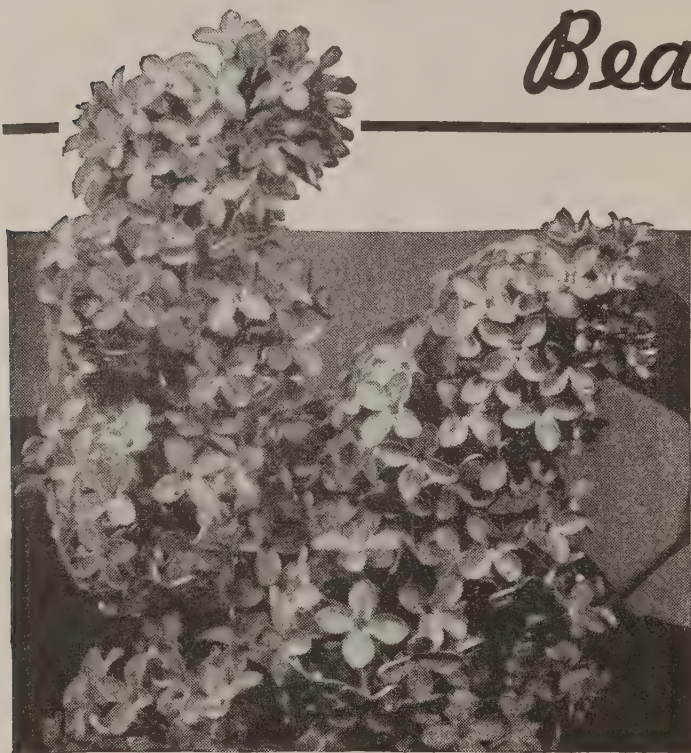

No. 286 *Red Flowering* DOGWOOD

(*Cornus Florida Rubra*.) This unique tree is rapidly becoming the most popular of the FANCY FLOWERING TREES. It is called the Aristocrat among the finest plantings in America. This small uniform tree is literally covered with large sparkling rose-red flowers often measuring three to four inches in diameter before the leaves appear in the early spring. Its grayish-green foliage makes it attractive during Summer, and in early Autumn the foliage turns to a glistening rich crimson. Our select trees are propagated from buds taken from fine specimen trees which have the largest and most vivid colored blooms. The tree is extremely hardy and will thrive in most sections of the United States. Our trees being budded will often bloom the same season planted. The Red Flowering Dogwood is conceded to be the most outstanding and the most distinct flowering tree in America. This year we are able to price this magnificent tree in reach of all. The following size trees are all large, heavily branched, transplanted trees.

SELECT WELL BRANCHED SPECIMEN, 4 to 5 feet trees, ready to bloom: \$4.98 each; two or more trees, \$4.90 each.
EXTRA LARGE JUMBO SELECT SPECIMEN, 5 to 6 feet trees, which will bloom soon after planted: \$6.98 each; 2 or more trees, \$6.90 each. Both size trees will be shipped Express Prepaid with soil burlapped around the roots.

SHRUBS *That Add Charm and Beauty to Your Home*

Lilac, President Lincoln

No. 311

AMERICAN CRANBERRY

VIBURNUM, americanum

A beautiful Shrub on which you can raise your own delicious Cranberries. Grows about 5 feet tall and thrives everywhere. Its attractive large clusters of white flowers are followed in the fall by huge Red Berries which are delicious to eat fresh and make superb jelly, jam or juice. Autumn foliage turns to brilliant shades of rich purple and red. **Large Bearing Size 2 to 3 ft. Bushes, 98c each; 3 or more, 90c each.**

No. 320 RED TARTARIAN HONEYSUCKLE

A rapid growing hardy ornamental shrub, useful for many purposes. Stands shearing and can be trained to a very desirable tall spreading hedge or screen effect. Attains a height of eight to ten feet. Its grayish white wood is beautiful at all seasons of the year. Its glossy foliage, so thick a chicken can't get through it. Red flowers coming early in May, are followed by a big crop of red berries that last until winter, it makes a paradise for birds. Grows with little or no care and lasts a lifetime. If you have a place in the shade where nothing else will grow, plant this shrub. **Price, 2 to 3 ft., 79c each; 3 or more, 75c each.**

No. 322. PINK TARTARIAN HONEYSUCKLE— Same as above except flowers are pink. **Prices same as Red Tartarian.**

Red Tartarian Honeysuckle

French Lilacs

These new improved French Lilacs rank among the finest of all shrubs. They bloom so young (generally next year after planting), bloom so freely, are so fragrant and has such lovely colors. Perfectly hardy, grow everywhere and last for generations. The varieties we offer are the world's Newest and Finest. Noted for colorings.

All following French lilacs are select grafted bushes. Your choice of any varieties \$1.35 each. 2 or more \$1.30 each.

No. 304. PRESIDENT LINCOLN—Single flowers three-fourths to seven-eighths inch across, purplish lilac in bud. Wedgwood-blue when fully open, large clusters. Branches ascending and habit somewhat compact. Very vigorous and early in blooms.

No. 326. MARECHAL FOCH—The high panicles, carried by long, straight stems, are truly immense. The individual flowers, fully one inch in diameter, perfectly shaped, are of a bright carmine-rose with a pink eye when opening. Early.

No. 328. ADELAIDE DUNBAR—Flowers large, semi-double to occasionally double, in long narrow clusters; deep maroon-red in bud, opening violet red. One of the darkest red lilacs.

No. 332. PRES. CARNOT—Flowers large, double, light lilac blue; in long narrow clusters. A free-blooming, strong-growing variety of very good color.

No. 334. CONGO—A beautiful variety has huge trusses of brilliant red flowers.

2 Glorious New Everblooming Butterfly Bushes

(Buddleia)

Two new Buddleias, each the finest of its color, and all blooming profusely and continuously from early summer to frost. No other shrub can compare with them for freedom of bloom. They make a compact bush, 4 feet or so tall. The roots are hardy, the tops die down in winter, then come up even more vigorously in the spring.

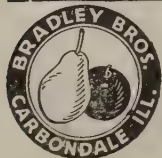

The lovely, fragrant flowers are beautiful in the garden and are fine for cutting. There is nothing in our nursery that we like better. We invite you to plant some.

No. 373. ROYAL RED (Patent No. 556)—By far the best red Buddleia. But the color is a very rich, glowing ruby-red and not as cherry-red as pictured. The throat of each single flower is lighted with gold. There is no finer nor more attractive flower in our entire nursery. Postpaid. **Each 98c.**

No. 375. EMPIRE BLUE (Patent No. 557)—The color is a charming aster-blue with a delicate lilac tone, the whole effect being an exquisite shade of blue. No other blue Buddleia can compare with this. Postpaid. **Ea. 98c.**

Royal Red Buddleia

3 or More 85c Each

No. 344. HYDRANGEA PANICULATA GRANDIFLORA—They are extensively used for yard, lawn and hedge planting and for screens. Attains a height of 5 to 7 feet; hardy in all localities; blooms the first and every season in July and August. The flowers are massive, cone-shaped, often measuring 10 inches in length, and have a pleasing variation in color, changing from original pure white to pink, and finally to beautiful, rich, coppery-red.

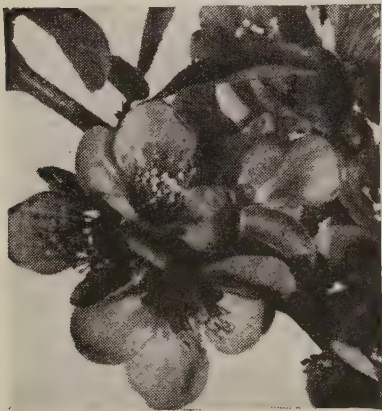

No. 346. CYDONIA—QUINCE. Japonica. FLOWERING QUINCE. 5 ft. Scarlet flowers early in spring followed by large fragrant, quince-shaped, orange fruits. Foliage dark and shiny; growth bushy and dense; makes good pruned foreground.

No. 348. HILLS OF SNOW OR EVERBLOOMING HYDRANGEA—This new Everblooming Hydrangea is as its name implies constantly in bloom from early in June until frost, and is one of the most important additions in the way of hardy shrubs ever introduced. All summer long it bears great clusters of white flowers, much like the tender Hydrangea in size and form; it will grow to perfection in partial shade, made it most valuable for massing under trees or growing on north side of house. Hardy everywhere. Plant at least a half dozen plants. The effect is lovely.

No. 350.—NEW PHILADELPHUS ("Virginal")—One of the most beautiful, new ever-blooming varieties. It also makes wonderful individual specimen plants on the lawn. A vigorous tall grower with very large double-crested flowers with round petals.

No. 352. VAN HOUTTE SPIREA—Indispensable in any grouping of shrubbery where its gracefully arching, slender branches, fine twigs and "maidenhair" foliage may be left unpruned. A fountain of white in May.

No. 354. ARONIA—CHOKEBERRY. Arbutifolia. RED CHOKEBERRY. Grows upright to 6 feet; very pretty in April and May with an abundance of white flowers; its fall foliage and fruits a bright red, carrying well into winter.

Cydonia, Fl. Quince

No. 356. SPIREA, RED (Anthony Waterer)—Our finest low-growing flowering hedge. Grows only 2 to 3 feet tall without trimming, red blooms all season.

No. 358. EVA RATHKE WEIGELA—5 ft. Most distinct variety, being later (July) and most conspicuous with its deep carmine-red flowers.

No. 360. ROSEA WEIGELA—One of the finest of the family, tall growing and vigorous with deep pink flowers. They blossom in profusion in June and show some flowers throughout the season.

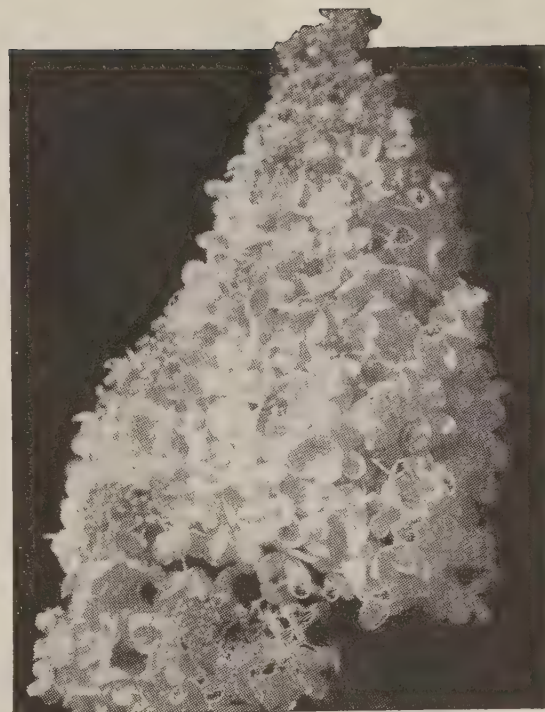

No. 362. SUSPensa—FORSYTHIA. 8 ft. Tall and spreading; lighting up the garden with glinting masses of yellow, flowers early in spring before the leaves appear. Of upright growth.

New Philadelphus

True Bittersweet

Hardy Ornamental CLIMBING VINES

No. 378. BOSTON IVY (Amp. Veitchii)—This is the vine that imparts romance and beauty to clapboard cottage and stone mansion alike. It clings closely to any wall, wood, brick or stone, without support. The foliage colors beautifully in the fall. Prefers a north or east side. This is the clinging vine usually seen on buildings. Our heavy 2 Year No. 1 plants are far superior to smaller plants. **Each 75c; 2 or more, 70c each.**

No. 382. TRUE BITTERSWEET—Its bright orange-red berries are so popular for winter bouquets. Plant 2 or 3 vines so they can cross-pollinize, thus producing many more berries. **Price, 2 year vines, 98c each; 2 or more, 95c each.**

No. 381. SCARLET HONEYSUCKLE—Everblooming—A mass of beautiful scarlet blossoms all Summer and Fall. We know of no other hardy vine that will bloom so continuously over such long period of time. This vine can be used for covering porches, fences and trellises, or can be trimmed into a shrub. **Select ready to bloom vines, 98c each; 2 or more, 90c each.**

No. 383. HALL'S HONEYSUCKLE—Long time favorite, producing masses of lovely, fragrant flowers of white and yellow nearly all Summer. Lovely foliage almost evergreen. Does well in sun or shade. Ideal for trellises or covering banks to prevent erosion. Fragrant, fascinating and delightful. **Select ready to bloom vines, 48c each; 3 to 9 vines, 45c each; 10 or more, 40c each.**

Boston Ivy

Hall's Honeysuckle

COLORFUL HEDGES

Here is a fence that improves with age—gets stronger and more beautiful each year. No painting or repairing to do—just prune to make it grow heavier and thicker. Actually costs less than wood or metal fences, and adds hundreds of dollars landscaping value to your home.

No. 364. BARBERRY, RED-LEAVED. Foliage bronze-red, changing to vivid orange and scarlet in fall. Red berries remain during winter. **18-24 in., each, 55c; 5 for \$2.50; 25 for \$11.25.**

No. 366. BARBERRY THUNBERGI. Pretty plant of dwarf habit. Graceful foliage, turning to a beautiful red in the fall. Prickly, keeps dogs away. Two-year strong plants, well-branched (Plant 18 in. apart.) **12-18 in., 10 for \$3.00; 25 for \$6.25; 100 for \$20.00; 18-24 in., 10 for \$4.50; 25 for \$8.75; 100 for \$25.00.**

No. 368. PRIVET, AMUR RIVER. Hardy. Of similar form to California type; safest for cold climates. Two-year, strong plants, well-branched. **18-24 in., 10 for \$2.80; 25 for \$5.60; 100 for \$20.00.**

Red-Leaved Barberry

READ WHAT THESE PEOPLE SAY

I have bought Fruit Trees from you the last three years and they have all grown well. The Peach and Plum trees have fruit on them this year. I set them out two years ago.—Henry Meyerring, Rensslear, Ind.

I have been very well pleased with the Nursery Stock and Service you have given me. My Phlox is beautiful.—Mrs. R. C. Oram, 7 Laymont St., St. Louis, Missouri.

The fruit trees we ordered are doing very well and we wish to thank you for the prompt service.—Mrs. Frank Palumbo, Hazelwood, Pa.

I am only too happy to recommend your wonderful Nursery Stock and fair dealings. I think your stock is exceptionally good and of the highest quality.—Mrs. W. M. Atherton, Maryville, Mo.

Amur River Privet

30 WE OFFER ONLY VARIETIES WHICH HAVE BEEN TESTED AND FOUND OF STERLING QUALITY

Border Queen

HARDY Phlox

The world's newest, finest and most gorgeous new colors, new fragrance, new charm. Phlox is surely the "royalty" of the summertime flowers, their tall waxen clustered heads so richly colored, so fragrant.

These Six New, Rare Beauties are the result of an endless search extending world wide. Each variety will give you loads of gorgeous blooms from July until killing frost.

PLANTING INSTRUCTIONS

Plant Phlox shallow but firmly in ordinary garden soil. 12 to 15 inches apart, they do best where they get some sunshine. Once planted they are permanent. Hardy as Oaks. Require no petting or coaxing, no winter protection. Free from insect pests and disease.

No. 386. FLASH—Seldom has one seen such a shade of red. Its brilliant scarlet blooms seem to glow with fire. This impression is heightened by the fact that there seems to be a decided orange cast to the blooms. Of splendid habit, about 3 feet high with full rich heads of bloom early. The best red Phlox in existence.

No. 388. DAILY SKETCH—This variety possesses compelling beauty. It is vigorous in growth and reaches a height of about 3 feet. The flower trusses are enormous and the individual florets are extra large. Color, salmon-pink with vivid crimson eye. A splendid and worthwhile English novelty.

No. 390. BRILLIANT—A fiery, brilliant scarlet Phlox with darker eye, much sought after. Large trusses, 30 in.

No. 392. ICICLE—This is a new RAVISHING BEAUTY of pure glistening white. The enormously large snow white flowers are most outstanding. Its purity of color and size of blooms make a plant of amazing beauty. Extremely hardy, healthy and always in bloom.

No. 394. ROYAL BLUE—Giant flowers of a lovely violet blue. Here is a robust variety with plenty of vitality. Often 14 to 15 flower spikes are produced on a single plant. The lovely blue flowers make a handsome massive display above the dark green foliage.

No. 396. BORDER QUEEN—This new variety is surely a beauty. The enormous flowers are of a rich satiny rose-pink. VERY RARE and BEAUTIFUL. The plants are dwarf and do not get out of bounds. Excellent borders and in beds they are truly magnificent.

SATISFACTION OR YOUR MONEY BACK

Regardless of Where You Live—You Can Successfully Grow the Following Varieties of Roses in Your Own Garden. Complete Instructions—How to Grow Roses Will be Attached to Each Shipment Free. Numbers Before Names Refer to Illustrations on next page. Each Variety is accurately illustrated in its natural size and color on next page. Illustrations were made from actual color photographs.

You will find all the varieties of Roses we have sold, and are selling under the following names, to be true to description.

No. 1 MIDNIGHT—This SPLENDID RICHLY PERFUMED rose is a soft blackish crimson in color, the petals look like pieces of soft luxurious velvet. The blackish-crimson buds open into huge flowers, which are held erect on rigid, long stems. The vigorous growing upright bush is continuously in bloom from early spring to frost. A most desirable rose for garden and cutting. THIS BLACK BEAUTY IS DISTINCTLY INDIVIDUAL. Price, 3 year, \$1.50 each.

No. 2 SNOW WHITE—THE MOST GORGEOUS ROSE. Blooms continuously from early spring until late fall. Long pointed buds, large double flowers. GLORIOUS IN THEIR PURE FADELESS SNOW WHITE. Borne on long stiff stems deliciously fragrant. Plants vigorous and extremely hardy. THE WORLD'S MOST GORGEOUS WHITE ROSE. Price, 3 year, \$1.50.

No. 3 PINK CHARMING—The most perfect shaped rose in the world. Has long pointed buds which open into exquisite double flowers. Stems are long and stiff. Blossoms remain a beautiful shell pink until the last petals fall. We believe Pink Charming is the most fragrant of all roses. The healthy, vigorous bushes are loaded with huge blossoms from early spring until winter. Price, 3 year, \$1.50.

No. 4 SURPRISE—This GORGEOUS New Rose is another masterpiece of the most modern rose breeding. Its breathtaking loveliness is difficult to show on paper. It has all the qualities that are required to inspire the admiration of all who love beautiful flowers. Its enchanting rich color will be a constant joy. Its long charming buds which are superbly formed, slowly open into huge double, high centered, gorgeous flowers. The healthy, vigorous bushes with large glossy foliage are loaded with huge, gorgeous flowers early spring 'til frost. Price, 3 year, \$1.50 each.

No. 5 CRIMSON GLOW—AMERICA'S MOST brilliant rose. Its vivid, fiery, scarlet color makes Crimson Glow the most distinct and most attractive rose in America today. This gorgeous new variety produces its large well-formed buds which open into the most dazzling double fiery red flowers on vigorous upright bushes. It is ideal for outdoor planting, as it continues to produce its large flowers throughout the most unfavorable hot weather when many other varieties fail. Price, 3 year bushes, \$1.50 each.

No. 6 GOLDEN STREAMLINE—Remarkable for its pure unstained rich golden color. An entirely new type with "STREAMLINED" buds which often exceed two inches in length. One cannot resist the charm of this perfumed, perfectly formed rose. Its long narrow petals of pure gold open to huge double flowers filled with a delicate fragrance found in no other yellow rose. The huge flowers retain their rich golden color until the last petal falls. The flowers are long lasting. Price, 3 year, \$1.50 each.

No. 7 BRADLEY'S BEAUTY—Gigantic, double, deep carmine red. A MARVELOUS BURST OF GLORIOUS COLOR from early Spring until hard freezing weather. Long graceful huge red buds bursting into Superb, gigantic double carmine red blossoms. Bradley's Beauty is one of America's most fragrant roses. Regardless of the number of varieties of roses you have in your garden or the amount you paid for the bushes, we are sure you will agree that Bradley's Beauty is the most gorgeous rose you have ever seen. The strong healthy bushes will thrive even under adverse conditions and be loaded with huge blossoms every day throughout the entire Spring, Summer and Fall. Truly Bradley's Beauty is the Sensation of the rose world. Gigantic blossoms have long, strong stems and are superb for cutting. Be sure to plant the world's most GORGEOUS ROSE. Price, 3 year, \$1.50 each.
